"Kazahana" (or "kazabana"--same word different reading, probably depending on the locality) is a meteorological phenomenon in which snow falling in a location quite remote from you is blown by strong winds and flutter in the sunny sky above you. Therefore, it is "snow flower," and "wind flower" and "snowing on a clear day." This doesn't happen everywhere but occurs in certain parts of Japan where the conditions are right for the phenomenon to happen. I've seen it in Kyoto and Gunma, but not in Tokyo where I live. Because of the beauty and romance of snowflakes glittering in the sun, Kazahana is popularly used as names of products, stores, etc. That is the reason why you saw it used for a doll.

Диана Експрес - Северина / Diana Express - Severina

Северина, момиче от сняг / Severina a girl made of snow
всяка зима е северен знак / every winter she is a northern sign
аз го имам в песен от юг / I have it in song from south
Северина - радост за друг / Severina - a joy not for me

И като сняг тихо вали / And like snow, she silently comes
вик от мойта любов / a scream from my love
и се топи и навява тъга / and she melts and evokes sadness
песента ми за теб / my song for you

Северина, момиче от сняг / Severina a snow girl
на приказна фея / she is a fabulous fairy's
е северен знак / northern sign
целува ме силно и досега! / she kisses me strongly, still!
тръгва зима - бяла тъга! / winter starts marching on - white sadness!

1 In 1984, Cameron was hired to write a sequel to ''[[First Blood]]''; it was rewritten by [[Sylvester Stallone]] and released as ''[[Rambo: First Blood Part II]]''.&lt;ref&gt;{{Cite web |last=Crocker |first=Jonathan |date=November 19, 2009 |title=James Cameron Interview: On His Own Movies |url=https://www.totalfilm.com/features/james-cameron-interview-on-his-own-movies/rambo-first-blood-part-ii-1985 |archive-url=https://web.archive.org/web/20130722153924/https://www.totalfilm.com/features/james-cameron-interview-on-his-own-movies/rambo-first-blood-part-ii-1985 |archive-date=July 22, 2013 |access-date=January 21, 2023 |website=Total Film}}&lt;/ref&gt;&lt;ref&gt;{{Cite news|url=https://www.nytimes.com/1985/05/22/movies/screen-sylvester-stallone-returns-as-rambo.html|title=Screen: Sylvester Stallone Returns as Rambo|last=Canby|first=Vincent|date=May 22, 1985|work=The New York Times|access-date=October 23, 2019|archive-url=https://web.archive.org/web/20190920055754/https://www.nytimes.com/1985/05/22/movies/screen-sylvester-stallone-returns-as-rambo.html|archive-date=September 20, 2019|language=en-US|issn=0362-4331}}&lt;/ref&gt; Cameron was then hired to write and direct a sequel to ''[[Alien (film)|Alien]]'' (1979), a science fiction horror film directed by [[Ridley Scott]]. Like the original, the sequel ''[[Aliens (film)|Aliens]]'' (1986) featured [[Sigourney Weaver]] as [[Ellen Ripley]]. ''Aliens'' follows Ripley as she helps a group of marines fight off [[Extraterrestrial life|extraterrestrials]]. Despite conflicts with cast and crew during production, and having to replace one of the lead actors – [[James Remar]] with [[Michael Biehn]] – ''Aliens'' was a box office success, generating over $130&amp;nbsp;million worldwide.&lt;ref&gt;{{Cite web|url=https://www.boxofficemojo.com/release/rl3309340161/weekend/|title=Aliens|website=Box Office Mojo|access-date=October 24, 2019|archive-url=https://web.archive.org/web/20191024170514/https://www.boxofficemojo.com/release/rl3309340161/weekend/|archive-date=October 24, 2019|url-status=live}}&lt;/ref&gt; The film was nominated for seven [[Academy Awards]] in 1987; [[Academy Award for Best Actress|Best Actress]], [[Academy Award for Best Production Design|Best Art Direction]], [[Academy Award for Best Film Editing|Best Film Editing]], [[Academy Award for Best Original Score|Best Original Score]] and [[Academy Award for Best Sound Mixing|Best Sound]]. 2 Crosby won the [[Academy Award for Best Actor]] for his performance in ''[[Going My Way]]'' (1944) and was nominated for its sequel, ''[[The Bells of St. Mary's]]'' (1945), opposite [[Ingrid Bergman]], becoming the first of six actors to be nominated twice for playing the same character. Crosby was the number one box office attraction for five consecutive years from 1944 to 1948.&lt;ref name=Stanley&gt;Stanley, Bob, ''Let's Do It: The Birth of Pop Music'', Pegasus Books, 2022, pg. 220&lt;/ref&gt; At his screen apex in 1946, Crosby starred in three of the year's five highest-grossing films: ''The Bells of St. Mary's'', ''[[Blue Skies (1946 film)|Blue Skies]]'', and ''[[Road to Utopia]]''.&lt;ref name=Stanley/&gt; In 1963, he received the first [[Grammy Award|Grammy Global Achievement Award]].&lt;ref name=&quot;variety&quot;&gt;{{cite news |last=Tapley |first=Krostopher |title=Sylvester Stallone Could Join Exclusive Oscar Company with 'Creed' Nomination |work=[[Variety (magazine)|Variety]] |date=December 10, 2015 |url=https://variety.com/2015/film/in-contention/sylvester-stallone-oscars-golden-globes-1201657048/ |access-date=February 29, 2016}}&lt;/ref&gt; Crosby is one of 33 people to have three stars on the [[Hollywood Walk of Fame]],&lt;ref&gt;{{cite web |url=https://projects.latimes.com/hollywood/star-walk/about/#most-stars |title=Hollywood Star Walk |website=Projects.latimes.com}}&lt;/ref&gt; in the categories of motion pictures, radio, and audio recording.&lt;ref&gt;{{cite web |url=https://walkoffame.com/bing-crosby/ |title=Bing Crosby |website=Hollywood Walk of Fame|date=October 25, 2019 }}&lt;/ref&gt; He was also known for his collaborations with his friend [[Bob Hope]], starring in the ''[[Road to ...]]'' films from 1940 to 1962.

3 In the &quot;[[sound film|talkie]]&quot; era, Cleveland featured in several [[Major film studio|major studio]] films, such as [[Michael Curtiz]]'s [[Pre-Code Hollywood|pre-Code]] classic ''[[Goodbye Again (1933 film)|Goodbye Again]]'' (1933) with [[Warren William]] and [[Joan Blondell]]. Players from the [[1948 Cleveland Indians season|1948 Cleveland Indians]] appeared in ''[[The Kid from Cleveland]]'' (1949). [[Billy Wilder]]'s ''[[The Fortune Cookie]]'' (1966) was set and filmed in the city and marked the first onscreen pairing of [[Walter Matthau]] and [[Jack Lemmon]]. Labor struggles in Cleveland were depicted in ''[[Native Land]]'' (1942), narrated by [[Paul Robeson]], and in [[Norman Jewison]]'s ''[[F.I.S.T. (film)|F.I.S.T.]]'' (1978) with [[Sylvester Stallone]]. Clevelander [[Jim Jarmusch]]'s ''[[Stranger Than Paradise]]'' (1984) - a [[deadpan]] comedy about two New Yorkers who travel to [[Florida]] by way of Cleveland - was a favorite of the [[Cannes Film Festival]]. ''[[Major League (film)|Major League]]'' (1989) reflected the [[Cleveland Guardians#1960-1993: The 33-year slump|perennial struggles]] of the Cleveland Indians, while ''[[American Splendor (film)|American Splendor]]'' (2003) reflected the life of Cleveland graphic novelist [[Harvey Pekar]]. ''[[Kill the Irishman]]'' (2011) depicted the 1970s turf war between [[Danny Greene]] and the Cleveland crime family.&lt;ref name=&quot;Cle-Enc-Film&quot; /&gt;

4 Judge Dredd made his live-action debut in 1995 in ''[[Judge Dredd (film)|Judge Dredd]]'', portrayed by [[Sylvester Stallone]]. Later, he was portrayed by [[Karl Urban]] in the 2012 adaptation ''[[Dredd]]''. In audio dramas by [[Big Finish Productions]], Dredd is voiced by [[Toby Longworth]].

5 An American [[Judge Dredd (film)|film]] loosely based on the comic strip was released in 1995, starring [[Sylvester Stallone]] as Dredd. The film received generally negative reviews. On [[Rotten Tomatoes]] it has a 22% rating, and the site's critical consensus states that &quot;Director [Danny] Cannon fails to find the necessary balance to make it work&quot;.&lt;ref&gt;{{cite web |url=https://www.rottentomatoes.com/m/judge_dredd/ |title=Judge Dredd |date=30 June 1995 |work=[[Rotten Tomatoes]] |access-date=2021-10-01 }}&lt;/ref&gt; In deference to its expensive Hollywood star, Dredd's face was shown. In the comic, he very rarely removes his helmet, and even then his real face is never revealed. Also, the writers largely omitted the ironic humour of the comic strip, and ignored important aspects of the &quot;Dredd mythology&quot;. The co-creator and main writer of the comic character, [[John Wagner]], said: {{blockquote|I hated that plot. It was Dredd pressed through the Hollywood cliché mill, a dynastic power struggle that had little connection with the character we know from the comic.&lt;ref name=&quot;2000adreview_John-Wagner-on-Dredd&quot;&gt;{{cite web |first=Gavin |last=Hanly |url=http://www.2000adreview.co.uk/site/index.php/Interviews/John-Wagner-on-Dredd.html |title=John Wagner on Dredd |publisher=2000 AD Review |date=19 January 2010 |archive-url = https://web.archive.org/web/20100201230126/http://www.2000adreview.co.uk/site/index.php/Interviews/John-Wagner-on-Dredd.html | archive-date = 1 February 2010 |access-date=27 August 2016}}&lt;/ref&gt; }}

51 '''''Rocky''''' is a 1976 American [[sports film|sports]] [[drama film]] directed by [[John G. Avildsen]] and written by and starring [[Sylvester Stallone]]. It is the first installment in the [[Rocky (film series)|''Rocky'' franchise]] and also stars [[Talia Shire]], [[Burt Young]], [[Carl Weathers]], and [[Burgess Meredith]]. In the film, [[Rocky Balboa]] (Stallone), a poor small-time [[club fighter]] and [[loanshark]] debt collector from [[Philadelphia]], gets an unlikely shot at the world heavyweight championship held by [[Apollo Creed]] (Weathers).

55 At the time, Film Artists Management Enterprises (FAME), a joint venture between Hollywood talent agents Craig T. Rumar and Larry Kubik, represented Stallone. He submitted his script to Rumar and Kubik, who immediately saw the potential for it to be made into a motion picture. They shopped the script to various producers and studios in Hollywood but were repeatedly rejected because Stallone insisted that he be cast in the lead role. Eventually, they secured a meeting with Winkler-Chartoff productions (no relation to Henry Winkler). After repeated negotiations with Rumar and Kubik, Winkler-Chartoff agreed to a contract for Stallone to be the writer and also star in the lead role for ''Rocky''.&lt;ref&gt;{{Cite web |date=January 6, 2020 |author=Phil Jay |url=https://www.worldboxingnews.net/2020/06/01/sylvester-stallone-rocky-negotiations/ |title=Exclusive: Sylvester Stallone negotiations for Rocky movie uncovered |website=World Boxing News |access-date=June 10, 2020 |archive-date=June 10, 2020 |archive-url=https://web.archive.org/web/20200610050316/https://www.worldboxingnews.net/2020/06/01/sylvester-stallone-rocky-negotiations/ |url-status=live }}&lt;/ref&gt;

68 In 1993, Stone played a [[femme fatale]] in the erotic thriller ''[[Sliver (film)|Sliver]]'', based on [[Ira Levin]]'s [[Sliver (novel)|eponymous novel]] about the mysterious occurrences in a privately owned New York City high-rise apartment building. The film was heavily panned by critics and earned Stone a [[Golden Raspberry Awards|Golden Raspberry Award]] nomination for [[Golden Raspberry Award for Worst Actress|Worst Actress]] but became a commercial success, grossing US$116.3&amp;nbsp;million at the international box office.&lt;ref&gt;{{cite web|url=http://www.boxofficemojo.com/movies/?id=sliver.htm|title=Sliver (1993)website=Box Office Mojo|access-date=October 11, 2017|archive-url=https://web.archive.org/web/20171011233153/http://www.boxofficemojo.com/movies/?id=sliver.htm|archive-date=October 11, 2017|url-status=live}}&lt;/ref&gt; She also made a cameo appearance in the action film ''[[Last Action Hero]]'' (1993), reuniting with Arnold Schwarzenegger. In 1994, Stone appeared as the wife of an architect opposite [[Richard Gere]] in the drama ''[[Intersection (1994 film)|Intersection]]'', and as a woman who entices a bomb expert she is involved with into destroying the criminal gang that killed her family, alongside [[Sylvester Stallone]], in the action thriller ''[[The Specialist]]''. 69 Asia were also credited with contributing the [[Giorgio Moroder]] produced track &quot;Gypsy Soul&quot; to the [[Sylvester Stallone]] film soundtrack to ''[[Over the Top (1987 film)|Over the Top]]'' (1987), although Wetton was the only band member involved.

71 The film was often compared to Verhoeven's previous work on ''RoboCop'', with some reviews remarking that ''Total Recall'' lacked the same &quot;impudence and incandescence&quot; or satirization of 1980s action films as the earlier film.&lt;ref name=&quot;ReviewLATimes&quot;/&gt;&lt;ref name=&quot;ReviewWAPOHowe&quot;/&gt;&lt;ref name=&quot;ReviewEW&quot;/&gt; Some said the film was only fun when Verhoeven inserted moments of ''RoboCop''{{'}}s [[Camp (style)|camp style]].&lt;ref name=&quot;ReviewWAPOHowe&quot;/&gt;&lt;ref name=&quot;ReviewEW&quot;/&gt; ''[[The Washington Post]]''{{'}}s review compared it unfavorably with the [[Sylvester Stallone]] action film ''[[Cobra (1986 film)|Cobra]]'' (1986), saying it was disappointing in its overuse of violence and abandonment of cynicism and creativity for machoism and misogyny.&lt;ref name=&quot;ReviewWAPOKempley&quot;/&gt; Several reviews focused on the excessive violence, with [[Vincent Canby]] describing it as part of an influx of action-adventure films featuring numerous deaths, counting seventy-four kills in the film and over two hundred in ''Die Hard 2''.&lt;ref name=&quot;ReviewNYTimes&quot;/&gt;&lt;ref name=&quot;NYTimesCanbyViolence&quot;/&gt; Some were concerned by the dismissive and sometimes comical depiction of the deaths, and the general reliance on violence as a solution to all problems posed.{{efn|Attributed to multiple references:&lt;ref name=&quot;ReviewLATimes&quot;/&gt;&lt;ref name=&quot;ReviewNYTimes&quot;/&gt;&lt;ref name=&quot;ReviewChicagoTribune&quot;/&gt;&lt;ref name=&quot;ReviewWAPOKempley&quot;/&gt;&lt;ref name=&quot;NYTimesCanbyViolence&quot;/&gt;}} Even so, the ''[[Los Angeles Times]]''{{'}}s review said the violence never seemed to be deliberately sadistic or callous.&lt;ref name=&quot;ReviewLATimes&quot;/&gt; Despite this criticism, Bottin's practical effects were roundly praised, particularly the three-breasted prostitute and mutants that provided many of the film's standout visuals, despite their sometimes perverse or macabre nature.{{efn|Attributed to multiple references:&lt;ref name=&quot;ASCHistory&quot;/&gt;&lt;ref name=&quot;ReviewNYTimes&quot;/&gt;&lt;ref name=&quot;ReviewRollingStone&quot;/&gt;&lt;ref name=&quot;ReviewEW&quot;/&gt;}}
72 Lucas initially resisted casting Ford as Han, since Ford had previously worked with Lucas on ''[[American Graffiti]]'', and was therefore not unknown. Instead, the director asked Ford to assist with auditions by reading lines with other actors. However, Lucas was eventually won over by Ford, and cast him as Han over many other actors who auditioned.{{Efn|Other actors who reportedly auditioned for the role of Han Solo include [[James Caan]], [[Chevy Chase]], [[Robert De Niro]], [[Richard Dreyfuss]], [[Steve Martin]], [[Bill Murray]], [[Jack Nicholson]], [[Nick Nolte]], [[Al Pacino]], [[Burt Reynolds]], [[Kurt Russell]], [[Sylvester Stallone]], [[John Travolta]], [[Christopher Walken]], and [[Perry King]], who later played Solo in the [[Star Wars (radio series)|radio series]].&lt;ref name=&quot;Dreams&quot; /&gt;&lt;ref&gt;{{Cite web |last=Pollard |first=Andrew |date=September 29, 2013 |title=Movie News: James Caan Talks Turning Down Roles in Superman and Star Wars |url=https://www.starburstmagazine.com/movie-news-james-caan |access-date=March 3, 2024 |work=Starburst Magazine |archive-date=February 6, 2022 |archive-url=https://web.archive.org/web/20220206123130/https://www.starburstmagazine.com/movie-news-james-caan |url-status=live }}&lt;/ref&gt;&lt;ref&gt;{{cite web |last=Evans |first=Bradford |date=February 17, 2011 |title=The Lost Roles of Bill Murray |url=http://splitsider.com/2011/02/the-lost-roles-of-bill-murray/ |archive-url=https://web.archive.org/web/20150520115025/http://splitsider.com/2011/02/the-lost-roles-of-bill-murray |archive-date=May 20, 2015 |access-date=May 25, 2015 |website=Splitsider}}&lt;/ref&gt;&lt;ref name=&quot;casting&quot; /&gt;&lt;ref&gt;{{cite magazine |last=Farr |first=John |date=September 19, 2014 |title=Bill Murray and the Roles That Got Away |url=https://huffingtonpost.com/john-farr/bill-murray-and-the-roles_b_5850434.html |url-status=live |archive-url=https://archive.today/20160111082612/http://www.huffingtonpost.com/john-farr/bill-murray-and-the-roles_b_5850434.html |archive-date=January 11, 2016 |access-date=May 25, 2015 |magazine=[[Huffington Post]]}}&lt;/ref&gt;&lt;ref&gt;{{cite web |last=Denham |first=Jess |date=September 12, 2014 |title=Star Wars: Al Pacino turned down part of Han Solo over confusing script |url=https://www.independent.co.uk/arts-entertainment/films/news/star-wars-al-pacino-turned-down-part-of-han-solo-because-the-script-was-too-confusing-9723652.html |url-access=subscription |url-status=live |archive-url=https://ghostarchive.org/archive/20220524/https://www.independent.co.uk/arts-entertainment/films/news/star-wars-al-pacino-turned-down-part-of-han-solo-because-the-script-was-too-confusing-9723652.html |archive-date=May 24, 2022 |access-date=August 11, 2021 |work=[[The Independent]]}}&lt;/ref&gt;&lt;ref&gt;{{cite web|first=Alison|last=Nastasi|date=August 5, 2010|url=http://www.cinematical.com/2010/08/05/imagine-that-sly-stallone-auditioned-for-han-solo/|title=Imagine That: Sly Stallone Auditioned for Han Solo|website=Cinematical|access-date=August 6, 2012|archive-url=https://web.archive.org/web/20100806182036/http://www.cinematical.com/2010/08/05/imagine-that-sly-stallone-auditioned-for-han-solo/|archive-date=August 6, 2010}}&lt;/ref&gt;&lt;ref&gt;{{Cite web |last=Huver |first=Scott |date=May 25, 2018 |title=The Forgotten Han Solo Recalls Stepping Into Harrison Ford's Shoes |url=https://www.hollywoodreporter.com/movies/movie-news/star-wars-forgotten-han-solo-recalls-failed-audition-radio-drama-1114765/ |access-date=March 4, 2024 |website=The Hollywood Reporter |language=en-US |archive-date=March 4, 2024 |archive-url=https://web.archive.org/web/20240304045812/https://www.hollywoodreporter.com/movies/movie-news/star-wars-forgotten-han-solo-recalls-failed-audition-radio-drama-1114765/ |url-status=live }}&lt;/ref&gt;}}

78 On October 14, 1994, ''Pulp Fiction'' went into general release in the United States. As Peter Biskind describes, &quot;It was not platformed, that is, it did not open in a handful of theaters and roll out slowly as word of mouth built, the traditional way of releasing an [[Independent film|indie film]]; it went wide immediately, into 1,100 theaters.&quot;{{sfn|Biskind|2004|p=189}} In the eyes of some cultural critics, ''Reservoir Dogs'' had given Tarantino a reputation for glamorizing violence. 83 Keitel starred in [[Quentin Tarantino]]'s ''[[Reservoir Dogs]]'' (which he co-produced) in 1992,&lt;ref name=tca/&gt; where his performance as &quot;Mr. White&quot; took his career to a different level. Since then, Keitel has chosen his roles with care, seeking to change his image and show a broader acting range.&lt;ref name=tca/&gt; One of those roles was the title character in ''[[Bad Lieutenant]]'', about a self-loathing, drug-addicted police lieutenant trying to redeem himself.&lt;ref name=tca/&gt; He co-starred in the [[Jane Campion]] film ''[[The Piano]]'' in 1993,&lt;ref name=tca/&gt; and played Winston &quot;The Wolf&quot; Wolf in Quentin Tarantino's ''[[Pulp Fiction]]'', an apparent reprise of his Victor the Cleaner character from 1993's [[Point of No Return (1993 film)¦''Point of No Return'']]. Keitel starred as a police detective in [[Spike Lee]]'s ''[[Clockers (film)¦Clockers]]'' (an adaptation of [[Richard Price]]'s novel, co-produced by Martin Scorsese). In 1996, Keitel had a major role in Quentin Tarantino and [[Robert Rodriguez]]'s film ''[[From Dusk till Dawn]]'', and in 1997, he starred in the crime drama ''[[Cop Land]]'', which also starred [[Sylvester Stallone]], [[Ray Liotta]] and Robert De Niro.

84 He became a popular action film star and followed up with commercially successful films such as ''[[Cyborg (film)¦Cyborg]]'', [[Kickboxer (film)¦''Kickboxer'']] (both 1989), ''[[Lionheart (1990 film)¦Lionheart]]'', ''[[Death Warrant (film)¦Death Warrant]]'' (both 1990), ''[[Double Impact]]'' (1991), ''[[Universal Soldier (1992 film)¦Universal Soldier]]'' (1992), ''[[Nowhere to Run (1993 film)¦Nowhere to Run]]'', ''[[Hard Target]]'' (both 1993), ''[[Timecop]]'', ''[[Street Fighter (1994 film)¦Street Fighter]]'' (both 1994), [[Sudden Death (1995 film)¦''Sudden Death'']] (1995), [[The Quest (1996 film)¦''The Quest'']], which marked his [[directorial debut]], and ''[[Maximum Risk]]'' (both 1996). His big return to the action genre was in ''[[The Expendables 2]]'' (2012), in which he starred as the villain, opposite [[Sylvester Stallone]]. From thereon, he continued starring in action films and doing extensive voice work.

85 Among his acting heroes growing up were [[Charles Bronson]], [[Bruce Lee]], [[James Dean]], [[Montgomery Clift]], [[Steve McQueen]], [[Jean-Paul Belmondo]], and [[Sylvester Stallone]].&lt;ref&gt;{{Cite web¦url=https://www.undertheradarmag.com/interviews/jean-claude_van_damme_and_the_creators_of_jean-claude_van_johnson¦title=Jean-Claude Van Damme and the Creators of &quot;Jean-Claude Van Johnson&quot; &amp;#124; Under the Radar &amp;#124; Music Blog for the Indie Music Magazine}}&lt;/ref&gt;&lt;ref&gt;{{cite news ¦ url=https://www.theguardian.com/film/2012/aug/10/van-damme-expendables-2 ¦ title=Jean-Claude van Damme: 'I tried to play the system; I was blacklisted' ¦ newspaper=The Guardian ¦ date=10 August 2012 ¦ last1=Godfrey ¦ first1=Alex }}&lt;/ref&gt;

94 * ''Pt'it fromage qui pue.'' (Little stinking cheese) used by M. Sylvestre ([[Sylvester Stallone]]'s puppet) when talking of French people or when saluting PPD.

95 *'''Sylvestre''', '''Commandant Sylvestre''', '''Cardinal Sylvestre, and many others,''' both named and unnamed, all with the same face and voice, were fictional characters based on the likeness of the American actor [[Sylvester Stallone]], although when it was the actor himself who was represented, or [[John Rambo|Rambo]], he had a distinct appearance and a different voice. The Sylvestres were parodies of &quot;an [[Ugly American (epithet)|ugly American]]&quot;, of greedy multinational corporations, and the [[military-industrial complex]]. They always introduced themselves with &quot;''beuuarhh''&quot; ({{IPA|fr|bœwaʁ|IPA}}), a slurred version of &quot;[[wikt:bonsoir|bonsoir]]&quot; ({{IPA|fr|bɔ̃.swaʁ|IPA}}, ''good evening''). During the first [[Gulf War]], the ''Guignols'' introduced a character called ''Commandant Sylvestre''. He would explain the war in broad oversimplified terms (&quot;''Here's the good guys, that's us, and here are the ragheads, so we'll kill everybody there...''&quot;). After the gulf war, he was reintroduced as Mr. Sylvestre, an ubiquitous executive from the military-industrial complex, the [[corporation|corporate]] world, and the [[CIA]], all mixed into the fictional mega-corporation ''World Company''. Sylvestre was dressed in a suit and tie, with a security badge. Other Sylvestres, dressed as Cardinals, Reverends, Imams, Rabbis, and other religious leaders, were also portrayed as the Church Company, the twin sister of the World Company, specializing in &quot;the business of religion&quot;. During the 2017 season, he was the show's main anchor. In the very last episode, he was the CEO who fired PPD and Jacques Chirac.

96 * '''[[George W. Bush]]''' was depicted as a cretin along with his father.&lt;ref name=&quot;:1&quot; /&gt; He shows a tendency to war and fights terrorism in his bedroom, defending himself with hand grenades (beer cans). His laptop password is &quot;connard&quot; (one of the French words for &quot;dumbass&quot;). He often appears along with one of the Sylvestres, who gets portrayed as the guy who's really in charge. Remarkably, Bush's character spoke in french with an american (or english, foreign) accent, whereas M. Sylvestre spoke french without any foreign accent, after the french dubbed voice of Sylvester Stallone in his films.

97 Steiger played [[Pontius Pilate]] in [[Franco Zeffirelli]]'s TV [[miniseries]] ''[[Jesus of Nazareth (TV series)|Jesus of Nazareth]]'' (1977). [[Stacy Keach]], who portrayed [[Barabbas]], expressed his joy at the opportunity to work with Steiger, describing him as &quot;generous and opinionated&quot;.{{sfn|Keach|2013|p=119}} In 1978, Steiger played a senator in Norman Jewison's ''[[F.I.S.T. (film)|F.I.S.T.]]'', opposite [[Sylvester Stallone]], who played a Cleveland warehouse worker involved in the labor union leadership of the fictional organisation named Federation of Inter-State Truckers.{{sfn|Greene|2010|p=109}} ''[[Love and Bullets (1979 film)|Love and Bullets]]'', later that year, in which Steiger appeared as a mafia boss, was poorly received; [[Roger Ebert]] dismissed it as a &quot;hopelessly confused hodgepodge of chases, killings, enigmatic meetings and separations, and insufferably overacted scenes by Steiger alternating with alarmingly underacted scenes by [Charles] Bronson&quot;.&lt;ref name=&quot;Ebert79&quot;&gt;{{cite web|url=http://www.rogerebert.com/reviews/love-and-bullets-1979|title=''Love and Bullets''|author=Ebert, Roger|publisher=RogerEbert.com|date=January 1, 1979|access-date=July 23, 2015|archive-url=https://web.archive.org/web/20150928062044/http://www.rogerebert.com/reviews/love-and-bullets-1979|archive-date=September 28, 2015|url-status=live}}&lt;/ref&gt; The following year, Steiger was cast as a general opposite Richard Burton and Robert Mitchum in [[Andrew V. McLaglen]]'s war film ''[[Breakthrough (1979 film)|Breakthrough]]'', set on the [[Western Front (World War II)|Western Front]].{{sfn|Bowker|2000|p=218}} In ''[[The Amityville Horror (1979 film)|The Amityville Horror]]'' (1979), Steiger appeared as a disturbed priest, who is invited to perform an [[exorcism]] on a haunted house. Again Steiger was accused of overacting; [[Janet Maslin]] of ''The New York Times'' wrote: &quot;Mr. Steiger bellows and weeps and overdoes absolutely everything. He won't even pick up the phone before it's rung 12 or 15 times.&quot;&lt;ref&gt;{{cite news|author=Maslin, Janet|url=https://www.nytimes.com/movie/review?res=9A07EFD6143EE732A25754C2A9619C946890D6CF|title=''The Amityville Horror'' (1979)|work=The New York Times|date=July 27, 1979|access-date=July 23, 2015|archive-url=https://web.archive.org/web/20160426064528/http://www.nytimes.com/movie/review?res=9A07EFD6143EE732A25754C2A9619C946890D6CF|archive-date=April 26, 2016 |url-status=live}}&lt;/ref&gt;

Pauline Kael thought that Steiger's &quot;spiritual agony was enough to shatter the camera lens&quot;.{{sfn|Hutchinson|1998|p=141}}
In 1993, Steiger portrayed an aging [[Gynaecology|gynaecologist]] who terrorizes his urban neighbors in a rural community in [[Burlington, Vermont]] in ''[[The Neighbor (1993 film)|The Neighbor]]''. Dennis Schwartz considered it to have been one of Steiger's creepiest roles, though he thought that the poor script had rendered the role awkward and &quot;mildly entertaining in the sense that Steiger is asked to carry the film and hams it up&quot;.&lt;ref name=&quot;Schwartz Neighbor&quot;&gt;{{cite web|author=Schwartz, Dennis|url=http://homepages.sover.net/~ozus/neighbor.htm|title=''The Neighbor''|publisher=Ozus' World Movie Reviews|date=February 20, 2004|access-date=July 23, 2015|archive-url=https://web.archive.org/web/20150928063826/http://homepages.sover.net/~ozus/neighbor.htm|archive-date=September 28, 2015|url-status=live}}&lt;/ref&gt; The following year, Steiger agreed to play the role of a Cuban mob boss opposite Sylvester Stallone and [[Sharon Stone]] in [[Luis Llosa]]'s thriller ''[[The Specialist]]'', citing its purpose as a &quot;$40 million commercial&quot; to show a new generation that he existed.{{sfn|Fantle|Johnson|2009|p=140}} Critics panned the film, which has a four percent approval rating on [[Rotten Tomatoes]] based on 27 reviews as of July 2015.&lt;ref&gt;{{cite web|url=http://www.rottentomatoes.com/m/1056079-specialist/|website=[[Rotten Tomatoes]]|access-date=July 23, 2015|title=''The Specialist'' (1994)|date=January 31, 2006 |archive-url=https://web.archive.org/web/20150928063845/http://www.rottentomatoes.com/m/1056079-specialist/|archive-date=September 28, 2015|url-status=live}}&lt;/ref&gt; The role earned Steiger a [[Golden Raspberry Award for Worst Supporting Actor]] nomination, and the film was listed in ''[[The Official Razzie Movie Guide]]'' as one of &quot;The 100 Most Enjoyably Bad Movies Ever Made&quot;.{{sfn|Wilson|2005}}

Struggling as an actor for a number of years upon moving to [[New York City]] in 1969, Stallone found gradual work in films such as ''[[The Lords of Flatbush]]'' (1974). He achieved his greatest critical and commercial success starting in 1976 with his iconic role as boxer [[Rocky Balboa]] in the [[Rocky|first film]] of the successful [[Rocky (franchise)|''Rocky'' franchise]], which he also wrote.&lt;ref&gt;{{Cite web|title=Sylvester Stallone|url=http://www.imdb.com/name/nm0000230/|access-date=August 6, 2021|website=IMDb|archive-date=April 14, 2011|archive-url=https://web.archive.org/web/20110414005846/http://www.imdb.com/name/nm0000230/|url-status=live}}&lt;/ref&gt; In 1977, he became the third actor in history to be nominated for two Academy Awards for [[Academy Award for Best Original Screenplay|Best Original Screenplay]] and [[Academy Award for Best Actor|Best Actor]]. He portrayed the [[Post-traumatic stress disorder|PTSD]]-plagued soldier [[John Rambo]] in ''[[First Blood]]'' (1982), a role he would play across five [[Rambo (franchise)|''Rambo'' films]] (1982-2019). From the mid-1980s to the late 1990s, Stallone would go on to become one of Hollywood's highest-paid actors acting in action films such as ''[[Cobra (1986 film)|Cobra]]'' (1986), ''[[Tango &amp; Cash|Tango and Cash]]'' (1989), ''[[Cliffhanger (film)|Cliffhanger]]'' (1993), ''[[Demolition Man (film)|Demolition Man]]'' (1993), and ''[[The Specialist]]'' (1994). He received a star on the [[Hollywood Walk of Fame]] in 1984.

Stallone occasionally attempted, albeit unsuccessfully, roles in different genres. In 1984, he co-wrote and starred alongside [[Dolly Parton]] in the comedy film ''[[Rhinestone (film)|Rhinestone]]'', where he played a wannabe country music singer. For the [[Rhinestone (film soundtrack)|''Rhinestone'' soundtrack]], he performed a song. 136 On July 23, 2019, in an interview with [[Variety (magazine)|Variety]], Stallone said that a Rocky sequel and prequel are in development. Producer [[Irwin Winkler]] said &quot;We're very high on it&quot; and that negotiations are underway for Stallone to write and star in the feature. &quot;We're very anxious to make it.&quot; Stallone said the plot of the film would be about Rocky befriending a young fighter who is an undocumented immigrant. &quot;Rocky meets a young, angry person who got stuck in this country when he comes to see his sister. He takes him into his life, and unbelievable adventures begin, and they wind up south of the border. It's very, very timely.&quot; Stallone said. Stallone also said there are &quot;ongoing discussions&quot; about a Rocky prequel television series, which he hopes will land on a streaming service and the series will likely follow a young Rocky Balboa as a professional boxing hopeful. Stallone said producer Irwin Winkler is hesitant on making the series saying that &quot;There was some conflict there, yes. He felt in his mind that &quot;Rocky&quot; was primarily a feature film, and he didn't see it as being translated for cable, so there was a big bone of contention.&quot;&lt;ref&gt;{{cite web |url=https://variety.com/2019/film/features/sylvester-stallone-rocky-ownership-stake-1203275639/ |title=Sylvester Stallone Feels Robbed of an Ownership Stake in 'Rocky': 'I Was Furious' |work=[[Variety (magazine)|Variety]] |date=July 23, 2019 |access-date=July 23, 2019 |archive-date=October 31, 2021 |archive-url=https://web.archive.org/web/20211031124140/https://variety.com/2019/film/features/sylvester-stallone-rocky-ownership-stake-1203275639/ |url-status=live }}&lt;/ref&gt;&lt;ref&gt;{{cite web |url=https://popculture.com/movies/2019/07/23/sylvester-stallone-reveals-rocky-sequel-prequel-in-development/ |title=Sylvester Stallone Reveals 'Rocky' Sequel and Prequel Are in Development |work=popculture.com |date=July 16, 2019 |access-date=July 23, 2019 |archive-date=July 24, 2019 |archive-url=https://web.archive.org/web/20190724165447/https://popculture.com/movies/2019/07/23/sylvester-stallone-reveals-rocky-sequel-prequel-in-development/ |url-status=live }}&lt;/ref&gt; That year, Stallone hand-picked [[Derek Wayne Johnson]] to direct and produce a documentary on the making of the original ''[[Rocky]]'', entitled ''[[40 Years of Rocky]]'' (2020). 190 '''''Rocky IV''''' is a 1985 American [[Sports film|sports]] [[Drama (film and television)|drama film]] starring, written and directed by [[Sylvester Stallone]].&lt;ref name=&quot;Rocky IV&quot;&gt;{{cite web |url=https://www.tcm.com/tcmdb/title/20886/Rocky-IV/ |title=Rocky IV |work=TCM database |publisher=[[Turner Classic Movies]]|access-date=February 28, 2016}}&lt;/ref&gt; The film is the sequel to ''[[Rocky III]]'' (1982) and the fourth installment in the [[Rocky (franchise)|''Rocky'' film series]]. It also stars [[Talia Shire]], [[Burt Young]], [[Carl Weathers]], [[Brigitte Nielsen]], and [[Dolph Lundgren]]. In the film, [[Rocky Balboa]] (Stallone) confronts [[Ivan Drago]] (Lundgren), a Soviet boxer responsible for another personal tragedy in Balboa's life.

191 * [[Sylvester Stallone]] as [[Rocky Balboa|Robert &quot;Rocky&quot; Balboa]], &quot;The Italian Stallion&quot;: The reigning two-time Heavyweight Champion of the World.

192 Sylvester Stallone has stated that the original punching scenes filmed between him and Dolph Lundgren in the first portion of the fight are completely authentic. Stallone wanted to capture a realistic scene and Lundgren agreed that they would engage in legitimate sparring. One particularly forceful punch to Stallone's chest slammed his heart against his breastbone, causing the heart to swell. Stallone, suffering from labored breathing and a blood pressure over 200, was flown from the set in [[Vancouver, British Columbia]] to [[Saint John's Health Center|Saint John's Regional Medical Center]] in [[Santa Monica]], [[California]] and was forced into intensive care for eight days. Stallone later commented that he believed Lundgren had the athletic ability and talent to fight in the professional heavyweight division of boxing.&lt;ref name=&quot;AICN&quot;&gt;{{cite web |url=https://legacy.aintitcool.com/node/30932 |title=Stallone Interview With Ain't It Cool News |publisher=AICN |access-date=January 25, 2007}}&lt;/ref&gt; Producer Winkler describes the exact same event in his autobiography, observing not Lundgren, rather, &quot;Sly took a punch from a [[stand-in]] fighter and ended up in the emergency room with his blood pressure dangerously high.&quot;&lt;ref&gt;{{Cite book |last=Winkler |first=Irwin |title=A Life in Movies |publisher=Abrams Press |year=2019 |isbn=9781683355281 |location=New York|pages=111}}&lt;/ref&gt;

193 Songs from the movie include &quot;[[Living in America (James Brown song)|Living in America]]&quot; by [[James Brown]], as well as music by [[John Cafferty]] (&quot;[[Heart's on Fire (John Cafferty song)|Heart's on Fire]]&quot;, featuring Vince DiCola), [[Survivor (band)|Survivor]], [[Kenny Loggins]], and [[Robert Tepper]]. Four of these songs became U.S. chart hits, two of which reached the Top Five. [[Go West (band)|Go West]] wrote &quot;One Way Street&quot; for the movie by request of Sylvester Stallone. [[Europe (band)|Europe]]'s hit &quot;[[The Final Countdown (song)|The Final Countdown]]&quot;, written earlier in the decade by lead singer [[Joey Tempest]], is often incorrectly stated as being featured in the film due to its similarity to DiCola's &quot;Training Montage.&quot;{{citation needed|date=December 2014}} However, Europe's track was not released as a single until late 1986, after ''Rocky IV''&lt;nowiki&gt;'&lt;/nowiki&gt;s release.

194 In August 2020, Stallone announced that a [[director's cut]] edition of the film would be released to commemorate the film's 35th anniversary.&lt;ref&gt;{{cite web |url=https://screenrant.com/rocky-4-directors-cut-footage-drago-creed-sylvester-stallone/ |title=Sylvester Stallone Releases New Footage of Rocky 4 Director's Cut |first=Mike |last=Jones |website=[[Screen Rant]] |date=September 10, 2020 |access-date=November 2, 2020}}&lt;/ref&gt; Approximately 38 minutes of previously unreleased footage consisting of both new scenes and alternate takes was added to the film, including significant extensions of both fight scenes and the [[Apollo Creed]] funeral scene, in addition to a lengthier recap of ''Rocky III'' at the beginning of the film. 210 Stuart was hired by [[20th Century Fox]] to adapt Thorp's novel in 1987. His first draft was [[greenlit]] immediately, as the studio was eager for a [[Blockbuster (entertainment)|summer blockbuster]] the following year. The role of McClane was turned down by a host of the decade's most popular actors, including [[Arnold Schwarzenegger]] and [[Sylvester Stallone]]. Known mainly for work on television, Willis was paid $5{{nbsp}}million for his involvement, placing him among Hollywood's highest-paid actors. The deal was seen as a poor investment by industry professionals and attracted significant controversy towards the film prior to its release. Filming took place between November 1987 and March 1988, on a $25{{nbsp}}million to $35{{nbsp}}million budget and almost entirely on location in and around [[Fox Plaza (Los Angeles)|Fox Plaza]] in Los Angeles.

214 [[Hal Ashby]] was next sent the script, who agreed to direct the film. Fonda was cast from the beginning as Sally Hyde, the housewife. 222 '''''Rocky III''''' is a 1982 American [[Sports film|sports]] [[Drama (film and television)|drama film]] written, directed by, and starring [[Sylvester Stallone]].&lt;ref name=&quot;Rocky III&quot;&gt;{{cite web|url=http://www.tcm.com/tcmdb/title/20807/Rocky-III/|title=Rocky III|work=TCM database|publisher=[[Turner Classic Movies]]|access-date=February 28, 2016|archive-date=March 4, 2016|archive-url=https://web.archive.org/web/20160304193146/http://www.tcm.com/tcmdb/title/20807/Rocky-III/|url-status=live}}&lt;/ref&gt; The film is the sequel to ''[[Rocky II]]'' (1979) and the third installment in the [[Rocky (franchise)|''Rocky'' film series]]. It also stars [[Talia Shire]], [[Burt Young]], [[Carl Weathers]], and [[Burgess Meredith]]. In the film, [[Rocky Balboa]] (Stallone) faces stiff competition from [[Clubber Lang]] (Mr. T), a powerful new contender, and turns to his old adversary [[Apollo Creed]] (Weathers) to help him train.
223 * [[Sylvester Stallone]] as [[Rocky Balboa|Robert &quot;Rocky&quot; Balboa]], &quot;The Italian Stallion&quot;: the heavyweight champion of the world who continues to defend his title against other fighters. When Lang challenges Rocky and wins, the public cries for a rematch. As Rocky is reluctant following Mickey's death, former rival, Apollo Creed, befriends and trains The Italian Stallion in his preparation to take on Clubber Lang.
224 For the role of Clubber Lang, two real world-class heavyweight boxers were first considered: [[Joe Frazier]] and [[Earnie Shavers]]. Both were about the same height as Sylvester Stallone and had the powerful physique he was looking for, but, according to casting director Rhonda Young, Frazier had a stuttering problem, while Shavers had a high-pitched voice which would have undermined the character's menacing presence. After looking far and wide (even going to prisons in the hope of finding a suitable antagonist), Rhonda Young stumbled upon a television program on NBC, ''[[Games People Play (1980 TV series)|America's Toughest Bouncer]]'', showcasing a sports competition, and was mesmerized by the winner's physical prowess as well as his charisma. She then called the producer, Don Ohlmeyer, to ask him about &quot;the man with the mohawk&quot;. It turned out that not only was Mr. T a perfect fit, but he also proved tremendously determined to give the best possible performance right from the first [[screen test]], for what would be his [[breakout role]].&lt;ref&gt;{{Cite web|url=https://www.youtube.com/watch?v=m8uSM2YQoTA|title=Mr. T biography (1999) [starting from 08:40]|website=[[YouTube]]|access-date=2020-08-25|archive-date=2020-11-28|archive-url=https://web.archive.org/web/20201128193351/https://www.youtube.com/watch?v=m8uSM2YQoTA|url-status=live}}&lt;/ref&gt;
225 [[Gene Siskel]] gave the film two-and-a-half stars out of four and wrote, &quot;Sorry to say this, but there's not anything new in ''Rocky III'', and we sit there wondering why it exists.&quot; He added that &quot;we see nothing new about Rocky's character, except that the tender side of his soul, which made him so appealing, is now virtually missing. Rocky Balboa in ''Rocky III'' is no longer likable.&quot;&lt;ref&gt;Siskel, Gene (May 28, 1982). &quot;'Rocky' loses its punch in Round 3&quot;. ''[[Chicago Tribune]]''. Section 3, p. 3.&lt;/ref&gt; [[Pauline Kael]] of ''[[The New Yorker]]'' stated, &quot;The first ''Rocky'' was primitive in a relatively innocent way. This picture is primitive, but it's also shrewd and empty and inept.&quot;&lt;ref&gt;Kael, Pauline (May 31, 1982). &quot;The Current Cinema&quot;. ''[[The New Yorker]]''. 84.&lt;/ref&gt; [[Sheila Benson]] of the ''[[Los Angeles Times]]'' wrote, &quot;Somehow, Sylvester Stallone has kicked life into what you might imagine is a pretty tired Rocky Balboa and has gotten him up on his feet again ... ''Rocky III'' works, possibly even better than numbers ''I'' and ''II''.&quot;&lt;ref&gt;Benson, Sheila (May 28, 1982). &quot;Stallone's Punchout No. 3 at the K.O. Corral&quot;. 233 At Pinewood Studios northwest of London, and on location in [[Socialist Federal Republic of Yugoslavia|Yugoslavia]], he worked on the musical ''[[Fiddler on the Roof (film)|Fiddler on the Roof]]'' (1971, re-issued 1979), which won three [[Academy Awards|Oscars]] and was nominated for five others, including Best Picture and Director. It was filmed in Israel, where Jewison also produced the western ''Billy Two Hats'' (1974), starring [[Gregory Peck]]. ''Superstar'', controversial for its treatment of a religious subject, was followed by another movie that sparked critical debate, this time over violence. ''[[Rollerball (1975 film)|Rollerball]]'' (1975) is set in the near future when corporations rule the world and entertainment is centred around a deadly game. The next film he directed, the labour union drama ''[[F.I.S.T. 239 * '''''[[Action films|Action]]''''': In the 1970s, action films usually focused on maverick police officers. However, the genre did not become dominant in Hollywood until the 1980s, when it was popularized by action stars such as [[Arnold Schwarzenegger]], [[Sylvester Stallone]], [[Chuck Norris]], and [[Bruce Willis]]. Schwarzenegger built an iconic career out of action classics such as ''[[The Terminator]]'' (1984), ''[[Commando (1985 film)|Commando]]'' (1985), and ''[[Predator (film)|Predator]]'' (1987). Stallone starred in 1982's ''[[First Blood]]'' about a returning [[Vietnam War]] veteran fighting a small town sheriff, as well as its sequels ''[[Rambo: First Blood Part II]]'' and ''[[Rambo III]]''. Previously seen as a taboo in the 1970s, Vietnam War flicks like [[Oliver Stone]]'s ''[[Platoon (film)|Platoon]]'' and [[Stanley Kubrick]]'s ''[[Full Metal Jacket]]'' made the conflict a popular subject in the 1980s. Norris starred in the ''[[Missing in Action (film)|Missing in Action]]'' trilogy (1984, 1985, 1988) about a Vietnam veteran going back to rescue [[POW]]s. 1988's ''[[Die Hard]]'' was particularly influential on the development of the genre in the subsequent decade. In the film, Willis plays a New York City police detective who inadvertently becomes embroiled in a terrorist take-over of a [[Los Angeles, California|Los Angeles]] office building. Meanwhile, [[Hong Kong action cinema]] was being revolutionized by filmmakers [[Jackie Chan]], [[Tsui Hark]], and [[John Woo]]; garnering increased attention all over the world with the likes of ''[[Project A (film)|Project A]]'' (1983), ''[[Police Story (1985 film)|Police Story]]'' (1985), ''[[A Better Tomorrow]]'' (1986), and ''[[The Killer (1989 film)|The Killer]]'' (1989). Which featured increasingly complex [[Combat in film|martial arts and gunfight choreography]] with generally unsafe and most often uninsured [[stunt]] work. Blazing the trail for newer types of action movies like the [[heroic bloodshed]] subgenre. ''[[Tango &amp; Cash]]'', starring Stallone and [[Kurt Russell]], was one of the two last Hollywood films to be released in the 1980s.&lt;ref name=numbers&gt;{{cite news|title= Tango &amp; Cash - Box Office Data |work= The Numbers|url=http://www.the-numbers.com/movies/1989/0TNGC.php|access-date=2011-07-24}}&lt;/ref&gt;

It also stars [[Talia Shire]], [[Burt Young]], [[Carl Weathers]], and [[Burgess Meredith]]. In the film, [[Rocky Balboa]] (Stallone), struggling to adjust to his newfound fame and family life, finds himself in a rematch fiercely demanded by [[Apollo Creed]] (Weathers).
246 * [[Sylvester Stallone]] as [[Rocky Balboa|Robert &quot;Rocky&quot; Balboa]], &quot;The Italian Stallion&quot;: the underdog who was given one chance at winning the heavyweight championship from Apollo Creed in the first film. Due to the public's belief that it was very possible that Rocky could have won, he gets a second shot at the title in this film.
247 The story development of Rocky surprising Creed by switching to fighting right-handed was not in the original script and only came about because of an accident on set. While getting in shape for the film, Stallone experienced an almost complete tear on his right pectoralis major muscle while trying to bench press 100&amp;nbsp;kg with bodybuilder [[Franco Columbu]] and underwent a partially successful surgery in order to try to reattach the muscle. Therefore, he could not fight with his left hand.&lt;ref&gt;{{cite news |url=https://www.nytimes.com/1979/06/13/archives/rocky-fights-it-over-sports-of-the-times.html|title=Rocky Fights It over|newspaper=The New York Times|date=13 June 1979}}&lt;/ref&gt;&lt;ref&gt;{{cite web |url=https://theweek.com/articles/491907/sylvester-stallones-aging-physique|title=Sylvester Stallone's aging physique}}&lt;/ref&gt;

265 Gere began appearing in [[Hollywood (film industry)|Hollywood]] films in the mid-1970s. Originally cast in a starring role in ''[[The Lords of Flatbush]]'' (1974), he was replaced after fighting with his co-star [[Sylvester Stallone]]. Gere played a small but significant part in ''[[Looking for Mr. Goodbar (film)|Looking for Mr. Goodbar]]'' (1977) and starred in director [[Terrence Malick]]'s well-reviewed drama ''[[Days of Heaven]]'' (1978).&lt;ref name=&quot;actors&quot; /&gt; The crime drama ''[[American Gigolo]]'' (1980) significantly boosted his profile and the romantic drama ''[[An Officer and a Gentleman]]'' (1982) (co-starring [[Debra Winger]]) cemented Gere's ascent to stardom, grossing almost $130 million&lt;ref&gt;{{cite web|url=http://www.boxofficemojo.com/movies/?id=officerandagentleman.htm|title=An Officer and a Gentleman|website=Box Office Mojo|access-date=May 4, 2009}}&lt;/ref&gt; and winning two [[Academy Awards]] out of six nominations;&lt;ref&gt;{{cite web|title=The 55th Academy Awards - 1983|url=https://www.oscars.org/oscars/ceremonies/1983|website=Oscars.org|access-date=June 23, 2017}}&lt;/ref&gt; Gere himself received his first [[Golden Globe Award]] nomination.&lt;ref&gt;{{cite news|title=Officer and a Gentleman, An|url=http://www.goldenglobes.com/film/officer-and-gentleman|newspaper=Golden Globes|access-date=June 23, 2017}}&lt;/ref&gt;

269 The script was originally pitched to [[Walt Disney Studios (division)|Disney]] subsidiary [[Hollywood Pictures]], with [[David Hoberman]] attached as producer, but Disney placed the film into turnaround,&lt;ref&gt;{{Cite web |last=Archerd |first=Army |date=1996-11-26 |title='George' crew creates urban 'Jungle' |url=https://variety.com/1996/voices/columns/george-crew-creates-urban-jungle-1117863056/ |access-date=2024-09-04 |website=Variety |language=en-US}}&lt;/ref&gt; and sold the project to [[Regency Enterprises|New Regency Productions]], who at that time had a distribution deal with [[Warner Bros.]], with [[Sylvester Stallone]] in mind to star.&lt;ref&gt;{{Cite web |last=Busch |first=Anita M. |date=1996-12-13 |title=Stallone negotiates for 'Negotiator' role |url=https://variety.com/1996/scene/vpage/stallone-negotiates-for-negotiator-role-1117466156/ |access-date=2024-09-04 |website=Variety |language=en-US}}&lt;/ref&gt; Stallone turned the project down and offered the role to [[Samuel L. 270 Since 2003, the reclusive Johnson has kept well away from the public eye and has concentrated primarily on soundtrack work, scoring numerous documentaries, films, and art installations. {{Not a typo|The The's}} music has featured in a diverse range of cinema over many years, from cult classics such as Jürgen Muschalek's ([[Muscha]]) ''Decoder'' (&quot;Three Orange Kisses from Kazan&quot;) and [[Gregg Araki]]'s ''[[Nowhere (1997 film)|Nowhere]]'' (&quot;Love Is Stronger Than Death&quot;) to big-budget epics such as [[Sylvester Stallone]]'s ''[[Judge Dredd (film)|Judge Dredd]]'' (&quot;Darkness Falls&quot;), prompting Johnson's move into [[film score]] composition.

271 In addition, celebrities returned in full force to the booth, though this proved to be the major criticism of ESPN's first ''MNF'' season. On the opening weekend, Arnold Schwarzenegger, another celebrity-turned-[[Governor of California|California governor]], was in the booth at [[McAfee Coliseum]] in [[Oakland, California]]; before that, [[Jamie Foxx]] appeared at [[FedExField]] in suburban Washington, D.C. Following them, celebrity appearances included [[National Basketball Association|NBA basketball]] superstar [[Dwyane Wade]], [[Basketball Hall of Fame]] player [[Charles Barkley]], [[NASCAR Cup Series]] driver [[Jeff Gordon]], comedian [[Jimmy Kimmel]] (whose opening words to [[Joe Theismann]] were &quot;how's the leg?&quot;), actor [[Sylvester Stallone]], film director [[Spike Lee]], [[hip hop]] artist [[Jay-Z]], and ''MNF'' theme singer [[Hank Williams Jr.]]

272 Sometimes, a [[composer]] may unite with a [[Film director|director]] by composing the score for many films of a same director. [[John Williams]]' professional relationship with [[Steven Spielberg]] and [[George Lucas]] is one of the most prominent in film history, with Williams scoring all but five of Spielberg's films, and all the installments of both of Lucas' blockbuster franchises (''[[Star Wars]]'' and ''[[Indiana Jones]]''); Williams won all five of his Oscars in his collaborations with the two. Additionally, [[Danny Elfman]] did the score for all the movies directed by [[Tim Burton]], with the exception of ''[[Ed Wood (film)|Ed Wood]]'' (score by [[Howard Shore]]) and ''[[Sweeney Todd: The Demon Barber of Fleet Street]]'' (score by [[Stephen Sondheim]]). 286 When Sylvester Stallone was signed to play the lead in ''Beverly Hills Cop'', he decided to rewrite the script almost completely, removing nearly all the comedic aspects and turning it into an action movie that he felt was better suited to him. 287 Sylvester Stallone's earlier draft of the script contained many differences from later drafts and the final film. These include the opening shootout taking place in a movie theater (instead of a supermarket), during which many more people are killed; Cobra mentioning how he had a girlfriend who was killed by a psychopath he was trying to catch; an additional nighttime action sequence on a boat where Cobra and Ingrid are hiding and are attacked by the Night Slasher's cultists, with Cobra and Gonzalez managing to kill them all; and a different ending, in which Monte, revealed to be the actual leader of the New World, attempts to kill Ingrid at the last second before being killed by Cobretti.&lt;ref&gt;{{cite web ¦url=http://rawrvintageisclassic.blogspot.mx/2014/05/first-draft-screenplay-of-cobra.html ¦title=First Draft Screenplay of Cobra. ¦website=rawrvintageisclassic.blogspot.com ¦date=May 20, 2014 ¦access-date=September 11, 2016}}&lt;/ref&gt;

The studio produced stunt doubles of the car for use in some of the action sequences, such as the jump from the second floor of the parking garage. The production built three &quot;Cobra cars&quot; for stunt work. Although they were identical on the outside, their moving parts were designed for specific sequences, involving high-speed swipes with other vehicles, 180-degree turns, jumps, and 360-degree spins.&lt;ref name=&quot;afi&quot;&gt;{{cite web ¦ url=https://catalog.afi.com/Catalog/moviedetails/57290 ¦title=Cobra ¦website=AFI ¦access-date=February 28, 2016 }}&lt;/ref&gt;&lt;ref&gt;{{cite web ¦author1=MARIELENA HATZIGIANNIS ¦title=Sylvester Stallone reportedly reunites with stolen car ¦url=https://www.cbsnews.com/news/sylvester-stallone-reportedly-reunites-with-stolen-car/ ¦website=CBS News ¦date=March 30, 2011 ¦quote=he designed the car to fit his role in the movie, and that the car is worth around $250,000}}&lt;/ref&gt;

298 In the middle 1970s, films began to also reflect the disenfranchisement brought by the excesses of the past twenty years. A deeply unsettling look at alienation and city life, [[Martin Scorsese]]'s ''[[Taxi Driver]]'' earned international praise, first at the [[Cannes Film Festival]] and then at the [[Academy Awards]], where it was nominated for Best Leading Actor ([[Robert De Niro]]), Best Supporting Actress ([[Jodie Foster]]), Best Score ([[Bernard Herrmann]]), and Best Picture. ''[[All the President's Men (film)|All the President's Men]]'' dealt with the impeachment of [[Richard Nixon]], while Lumet's ''[[Network (1976 film)|Network]]'' portrayed greed and [[narcissism]] in both American society and television media. The film won Oscars for Best Actor ([[Peter Finch]]), Best Actress ([[Faye Dunaway]]), Best Supporting Actress ([[Beatrice Straight]]), and Best Screenplay ([[Paddy Chayefsky]]). Thanks to a stellar cast, experienced director, and a poignant story, ''Network'' became one of the largest critical successes of 1976. Another film, ''[[Rocky]]'', about a clubhouse boxer (played by [[Sylvester Stallone]]) who is granted a world championship title fight won the Best Picture [[Academy Award]] that year. The film also became a major commercial success and spawned four sequels through the rest of the 1970s and 1980s.

322 The theatrical year of 1996 achieved a $5.8 billion domestic gross milestone and saw a record twelve films earning over $100 million by the end of December, with ''Independence Day'' earning over $300 million. However, the film industry experienced a surplus of releases between 1995 and 1996 that resulted in several box office flops, studio bankruptcies and sales, and otherwise successful films struggling to turn in a profit. The average cost of producing and marketing film rose to $60 million, a 20% increase from the previous year, with a contributing factor being the record high-salaries for stars such as [[Sylvester Stallone]], [[Tom Cruise filmography|Tom Cruise]], [[Arnold Schwarzenegger]], [[Mel Gibson]], [[Jim Carrey]], [[Harrison Ford]], [[Michael Douglas]], [[Sharon Stone]], [[Julia Roberts]], and [[Demi Moore]] that became the subject of industry scrutiny following several high profile flops that were released in between 1995 and 1996. 342 During this phase, she made her stage debut in 1987 at the age of 22 in the off-Broadway play ''Daughters'', playing Cetta. The role earned her rave reviews and the [[Theatre World Award]] for outstanding debut on stage. She continued to take roles off-Broadway in the plays ''Beirut'' in 1987, ''Sharon and Billy'' in 1988, and ''[[What the Butler Saw (play)|What the Butler Saw]]'' in 1989. She also portrayed Rosa Delle Rose in ''[[The Rose Tattoo]]'' at the [[Williamstown Theatre Festival]]. She took more prominent roles opposite [[Sylvester Stallone]] in the comedy ''[[Oscar (1991 film)|Oscar]]'' (1991), and [[Nicolas Cage]] in the [[erotic thriller]] ''[[Zandalee]]'' (1991).

343 In 1987, she played the sensible, intelligent 18-year-old daughter of [[Patty Duke]]'s lead character in the short-lived [[Fox Broadcasting Company|Fox]] comedy ''[[Karen's Song]],'' and had a guest-star role in an episode of ''[[Night Court]]''. In 1988, she made a short [[Outrageous Okona|guest appearance]] in the ''[[Star Trek: The Next Generation]]'' episode [[The Outrageous Okona]] as Lt. Robinson. In 1989, she guest-starred in an episode of ''[[Quantum Leap (1989 TV series)|Quantum Leap]],'' &quot;Star Crossed&quot;, as the main character's mathematician/scientist future wife; and guest-starred as a nude beauty pageant winner in an episode of ''[[L.A. She then played [[Sylvester Stallone]]'s younger sister, a dancer, in the big-budget police action-comedy ''[[Tango and Cash]]'', also starring [[Kurt Russell]]; it was a critical and box office disappointment.

344 Basinger played the role of wife in two 2013 films - the independent drama ''[[Third Person (film)|Third Person]]'', with [[Liam Neeson]] and [[Olivia Wilde]], and the sports comedy ''[[Grudge Match]]'', with [[Robert De Niro]] and [[Sylvester Stallone]]. 426 '''''Rambo''''' is an American [[media franchise]] centered on a series of [[action film]]s featuring [[John Rambo|John J. Rambo]]. The five films are ''[[First Blood]]'' (1982), ''[[Rambo: First Blood Part II]]'' (1985), ''[[Rambo III]]'' (1988), ''[[Rambo (2008 film)|Rambo]]'' (2008), and ''[[Rambo: Last Blood]]'' (2019). Rambo is a [[United States Army Special Forces]] veteran played by [[Sylvester Stallone]], whose [[Vietnam War]] experience traumatized him but also gave him superior military skills, which he has used to fight corrupt [[police officer]]s, enemy troops and [[drug cartel]]s. ''First Blood'' is an adaptation of the 1972 novel ''[[First Blood (novel)|First Blood]]'' by [[David Morrell]].

427 [[Sylvester Stallone]] is the only actor to have appeared in all five films.

464 By the early 1980s, Winner found himself in great need of a successful film and accepted [[Charles Bronson]]'s request to film ''[[Death Wish II]]'' (1981), a sequel to the 1974 hit. Bronson had already signed a lucrative deal with [[Cannon Films]], independent producer of exploitation fare and marginal art house titles. The sequel, co-starring Bronson's wife [[Jill Ireland]], considerably increased the violence to more graphic levels. Winner said the film was 'the same, but different', to the original. 'That's what sequels are - ''[[Rocky II]]'', ''[[Rocky III]]'' - you don't see [[Sylvester Stallone]] move to the [[Congo Basin¦Congo]] and become a nurse. Here the look of LA is what's different. 486 '''''Demolition Man''''' is a 1993 American [[Science fiction film¦science fiction]] [[action film]] directed by [[Marco Brambilla]] in his [[directorial debut]]. It stars [[Sylvester Stallone]], [[Wesley Snipes]], [[Sandra Bullock]], and [[Nigel Hawthorne]]. Stallone plays John Spartan, a risk-taking police officer who has a reputation for causing destruction while carrying out his work. After a failed attempt to rescue hostages from evil [[Crime boss¦crime lord]] Simon Phoenix (Snipes), they are both sentenced to be [[Cryopreservation¦cryogenically frozen]] in 1996. Phoenix is thawed for a parole hearing in 2032, but escapes. Society has changed and all violent crime has seemingly been eliminated. 534 '''Sacred Heart Catholic Church''' is a [[Roman Catholic]] church in [[Dubuque, Iowa]]. It is part of the [[Archdiocese of Dubuque]] and located at 2215 Windsor Ave. The parish was one of the locations where the movie ''[[F.I.S.T. (film)|F.I.S.T.]]'' starring [[Sylvester Stallone]] was filmed.
535 The movie ''[[F.I.S.T. (film)|F.I.S.T.]]'', starring [[Sylvester Stallone]], was filmed largely in Dubuque. The main reason was that, with its absence of TV antennas, Dubuque looked more like [[Cleveland, Ohio|Cleveland]] of the 1930s than Cleveland did. There aren't many antennas because Dubuque had developed a cable system early on. This, in turn, was because the city's geography made over-the-air reception problematic. The church basement was one of the many Dubuque locations where filming was done, as was the sacristy of the church.  The main entrance to the church can be seen in the wedding scenes that were filmed at the church.

551 The 1986 arcade [[run and gun video game]] ''[[Ikari Warriors]]'' was intended by its developer [[SNK]] to be an official licensed adaptation of ''Rambo''. After the game made its North American debut at an arcade game expo, they managed to get in touch with Sylvester Stallone about acquiring the rights to the film. However, it was too late by that point, as the game had already become popularly known by its Japanese ''Ikari'' title among arcade players in Japan and North America, which led to the game's official release as ''Ikari Warriors'' in North America. 556 ''Face/Off'' was written by [[Mike Werb]] and [[Michael Colleary]] in 1990 as a [[spec script]]. They were inspired to write it after a mutual friend injured themself in a hang-gliding accident. The injury required the friend's face to be removed and reconstructed before being re-added onto their body. Werb and Colleary were also inspired by the film ''[[White Heat]]'' to create a plot where the main character survived a prison riot. ''Face/Off'' initially had a futuristic setting.&lt;ref name=&quot;:0&quot; /&gt;&lt;ref&gt;{{Cite web |date=1997 |title=Interviews: Produced Writer Mike Werb |url=http://www.writersupercenter.com/studionotes/interviews8.shtml |access-date=2024-02-27 |website=Writer Super Center}}&lt;/ref&gt;&lt;ref&gt;{{Cite web |last=Housman |first=Andrew |date=2022-03-23 |title=Believe It Or Not, Face/Off Could Have Been Even Weirder |url=https://www.slashfilm.com/807945/believe-it-or-not-faceoff-could-have-been-even-weirder/ |access-date=2024-02-27 |website=SlashFilm |language=en-US}}&lt;/ref&gt; ''Face/Off'' was optioned to [[Joel Silver]] and [[Warner Bros.]] in 1991. 560 '''Hans''' &quot;'''Dolph'''&quot; '''Lundgren''' ({{IPAc-en|'|l|ʌ|n|d|g|r|ən}}, {{IPA|sv|'dɔlːf 'lě̌nːdɡreːn|lang|Sv-Dolph_Lundgren.ogg}}; born 3 November 1957) is a Swedish actor, filmmaker and [[martial artist]]. Born in [[Spånga]], [[Sweden]], Lundgren became interested in martial arts at a young age. This would lead him to hold the rank of 4th ''[[Dan (rank)|dan]]'' [[Black belt (martial arts)|black belt]] in [[Kyokushin|Kyokushin karate]] and become European champion in 1980 and 1981. In 1982, while studying to get a [[master's degree]], he became the boyfriend of singer [[Grace Jones]]. He moved to [[New York City]] with her and started taking acting classes. In 1985, Lundgren had a breakthrough role playing the lead villain as an imposing [[Soviet Union|Soviet]] boxer named [[Ivan Drago]] in [[Sylvester Stallone]]'s ''[[Rocky IV]]''.

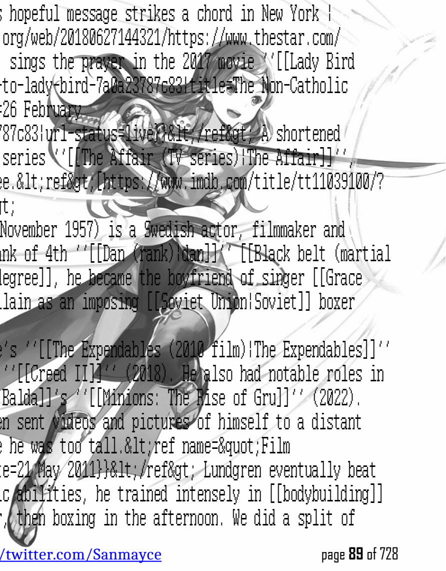
561 Lundgren returned to prominence in 2010 with the role of [[List of The Expendables characters#Gunner Jensen|Gunner Jensen]] in Sylvester Stallone's ''[[The Expendables (2010 film)|The Expendables]]'' alongside an all-action star cast. He reprised his role in its [[The Expendables (franchise)|sequels]]. He returned to the role of Ivan Drago in ''[[Creed II]]'' (2018). He also had notable roles in the [[Arrow season 5|fifth season]] of ''[[Arrow (TV series)|Arrow]]'' (2017), [[James Wan]]'s ''[[Aquaman (film)|Aquaman]]'' (2018), and [[Kyle Balda]]'s ''[[Minions: The Rise of Gru]]'' (2022).

562 Upon learning that [[Sylvester Stallone]] was seeking an imposing fighter to play Soviet boxer [[Ivan Drago]] in ''[[Rocky IV]]'' (1985), Lundgren sent videos and pictures of himself to a distant contact of Stallone, eventually reaching him. Lundgren tried out for the role, but as he himself has stated, he was initially turned down because he was too tall.&lt;ref name=&quot;Film review&quot;&gt;{{cite book |url=https://books.google.com/books?id=-ZcqAQAAIAAJ |title=Film review |publisher=Orpheus Pub. |year=1990 |access-date=21 May 2011}}&lt;/ref&gt; Lundgren eventually beat 5,000 other hopefuls to land his breakout role opposite Stallone, [[Carl Weathers]] and [[Brigitte Nielsen]]. To improve his physique and athletic abilities, he trained intensely in [[bodybuilding]] and [[boxing]] for five months before the film was shot. Lundgren said: &quot;We trained six days a week-weights in the morning for about an hour, then boxing in the afternoon. We did a split of



chest and back one day and then shoulders, legs, and arms the next. We boxed for an hour and a half, practiced the fight choreography, and did bag work and abs.&quot;&lt;ref name=&quot;FA&quot;&gt;{{cite magazine|url=http://findarticles.com/p/articles/mi_m0801/is_6_72/ai_n57642640/?tag=mantle_skin|title=He must break you: Dolph Lundgren reflects on playing Drago, crazed fans, and why you shouldn't break into his house|magazine=[[Muscle &amp; Fitness]]|access-date=4 October 2011|year=2011|archive-date=7 January 2016|archive-url=https://web.archive.org/web/20160107062450/http://findarticles.com/p/articles/mi_m0801/is_6_72/ai_n57642640/?tag=mantle_skin|url-status=dead}}&lt;/ref&gt; He weighed {{convert|243|lb|kg}} - {{convert|245|lb|kg}} during filming,&lt;ref name=&quot;FA&quot;/&gt; but in the film he was billed at {{convert|261|lb|kg}}; one publisher said of Drago, &quot;He's a hulking 261&amp;nbsp;pounds of merciless fighting machine, the best that Soviet science &amp; medicine can create&quot;.&lt;ref name=&quot;Bowker's Complete Video Directory 2002: Entertainment: titles A-S.&quot;&gt;{{cite book|title=Bowker's Complete Video Directory 2002: Entertainment : titles A-S.|url=https://books.google.com/books?id=KBJlAAAAMAAJ |access-date=22 May 2011|year=2002|publisher=[[R.R. 572 [[Carolco Pictures]] had originally signed [[Sylvester Stallone]] to appear opposite [[John Candy]] in a comedy about feuding neighbors titled ''[[John Hughes' unrealized projects|Bartholomew Vs. Neff]]'', which was going to be written and directed by [[John Hughes (filmmaker)|John Hughes]]. When that project was dropped, Stallone became involved in two other Carolco projects.

573 Carolco, believing the intended $40&amp;nbsp;million budget would be too big, and unable to figure out how to make special effects for the film, cancelled that project two weeks before production was supposed to begin; but Harlin still kept his $3&amp;nbsp;million, and he and Stallone and everyone else involved in it then moved on to ''Cliffhanger'', another Carolco project, which had a budget of $70&amp;nbsp;million, almost double that of ''Gale Force''.&lt;ref&gt;{{cite news|title= Troubled Route to Pirate Epic 'Cutthroat'; Movies: As the swashbuckling adventure starring Geena Davis, directed by her husband, Renny Harlin, opens this weekend, financial woes surround its release.|work= The Los Angeles Times|date=1995-12-21|url= https://www.latimes.com/archives/la-xpm-1995-12-21-ca-16222-story.html|access-date=2010-10-27|first=Judy|last=Brennan}}&lt;/ref&gt;&lt;ref&gt;{{cite web|url=https://www.chicagotribune.com/news/ct-xpm-1989-08-03-8901010972-story.html|title=How Deals Get Done Over A Hot Script|website=Article.latimes.com|date=August 3, 1989 |access-date=30 September 2017}}&lt;/ref&gt;&lt;ref&gt;{{cite web|url=https://ew.com/article/1991/10/04/sylvester-stallones-gale-force/|title=Sylvester Stallone's ''Gale Force''|date=4 October 1991|website=Ew.com|access-date=30 September 2017|archive-date=August 14, 2020|archive-url=https://web.archive.org/web/20200814115817/https://ew.com/article/1991/10/04/sylvester-stallones-gale-force/|url-status=dead}}&lt;/ref&gt;&lt;ref&gt;{{cite web|url=https://www.latimes.com/archives/la-xpm-1990-07-04-ca-273-story.html|title=Renny Harlin Finds Plenty of Action in Hollywood : Movies: With 'Die Hard 2' and 'Ford Fairlane' opening almost simultaneously, the Finnish director of adventure films is taking the industry by storm.|first=CHRIS|last=WILLMAN|date=4 July 1990|website=Articles.latimes.com|access-date=30 September 2017|via=LA Times}}&lt;/ref&gt;&lt;ref&gt;{{cite web|url=https://www.nytimes.com/1990/07/13/movies/at-the-movies.html|title=AT THE MOVIES|first=Lawrence Van|last=Gelder|date=13 July 1990|website=[[The New York Times]]|access-date=30 September 2017|via=www.nytimes.com}}&lt;/ref&gt;&lt;ref&gt;{{cite web|url=https://www.newsweek.com/total-free-fall-195938|title=Total Free Fall|date=8 March 1992|website=Europe.newsweek.com|access-date=1 October 2017}}&lt;/ref&gt;

574 On [[Rotten Tomatoes]], the film has an approval rating of 68% based on 55 reviews, with an average rating of 6.2/10. The website's critical consensus reads, &quot;While it can't escape comparisons to the movies it borrows from, ''Cliffhanger'' is a tense, action-packed thriller and a showcase for the talents that made Sylvester Stallone a star.&quot;&lt;ref&gt;{{cite web |title = Cliffhanger (1993) |url = https://www.rottentomatoes.com/m/1044214-cliffhanger/ |work = [[Rotten Tomatoes]] |publisher=[[Fandango Media]] |access-date = June 17, 2021}}&lt;/ref&gt; On [[Metacritic]], the film has a score of 60 out of 100 based on reviews from 16 critics.&lt;ref name=&quot;metacritic&quot;&gt;{{cite web |title= Cliffhanger |url= https://www.metacritic.com/movie/cliffhanger |website= [[Metacritic]] }}&lt;/ref&gt; Audiences polled by [[CinemaScore]] gave the film an average grade of &quot;B&quot; on an A+ to F scale.&lt;ref name=&quot;CinemaScore&quot;&gt;{{cite web |url= https://www.cinemascore.com/publicsearch/index/title/ |title= Cinemascore |url-status= dead |archive-url= https://web.archive.org/web/20181220122629/https://www.cinemascore.com/publicsearch/index/

575 In 1994, TriStar announced plans to develop a sequel titled ''Cliffhanger 2: The Dam'', with Stallone reprising his starring role. The plot revolved around Gabe Walker combating terrorists who took control of the [[Hoover Dam]]. The project remained in [[development hell]] until 2008, when the project was revived with Stallone's involvement, before once again being shelved.&lt;ref name=&quot;Sequel_SF&quot;&gt;{{cite web|url=https://www.slashfilm.com/sylvester-stallone-to-star-in-cliffhanger-2-the-dam/|title=Sylvester Stallone to Star in Cliffhanger 2: The Dam? - /Film|date=16 February 2008|website=Slashfilm.com|access-date=30 September 2017}}&lt;/ref&gt; By May 2009, it was announced that [[Reboot (fiction)|reimagining]] was in development. Produced by [[Neal H. Moritz]] the project would be a joint-production between [[Original Film]] and [[StudioCanal]]. The story would focus around a group of young climbers, and was tentatively scheduled to begin principal photography the following year. [[Ana Lily Amirpour]] was hired as director, with a new draft of the script written by Sascha Penn. [[Jason Momoa]] was in early negotiations to feature in a prominent cameo role; while Mortiz brought on Toby Jaffe, Thorsten Schumacher, and Lars Sylvest as additional producers. The story was described as a survival thriller action movie, with elements of espionage. An official production poster was released for the project's presence at Cannes, with a tentative commencement for principal photography was set for 2020. 576 In May 2023, it was officially announced that the project will be redeveloped as a legacy-sequel. [[Ric Roman Waugh]] will serve as director (replacing Amirpour), from a new script written by Mark Bianculli. Stallone will reprise his role from the original, in addition to taking on a role as producer. The plot will detail the continued adventures of climber-turned-rescue ranger Gabriel &quot;Gabe&quot; Walker alongside a supporting cast, and include the [[Alps#Geology and orogeny|Italian Alps]]. Casting underway for additional ensemble lead and supporting roles. Waugh expressed excitement for the challenge of working with Stallone, stating: &quot;Growing up with the biggest action films of the '80s and '90s, ...''Cliffhanger'' was by far one of my favorite spectacles. To be at the helm of the next chapter, ...with the legend himself...is a dream come true. It's going to be a great challenge and blast taking this franchise to new heights, a responsibility I don't take lightly.&quot; Moritz, Jaffe, Schumacher, Sylvest, and Braden Aftergood will serve as additional producers. The project will be a joint-venture production between Original Film, [[Balboa Productions]], StudioCanal, Rocket Science Films, Wright Productions &amp; Entertainment, and Front Row Entertainment. The movie had a presence at Cannes, where additional funding and distribution would be decided.&lt;ref name=&quot;Sequel_Deadline&quot;&gt;{{cite web|url=https://deadline.com/2023/05/sylvester-stallone-set-for-cliffhanger-reboot-from-director-ric-roman-waugh-1235351858/|work=Deadline|title=Sylvester Stallone Set For 'Cliffhanger' Reboot From Director Ric Roman Waugh|author=Grobar, Matt|date=May 1, 2023|accessdate=May 4, 2023}}&lt;/ref&gt;&lt;ref name=&quot;Sequel_THR&quot;&gt;{{cite web|url=https://www.hollywoodreporter.com/movies/movie-news/cliffhanger-reboot-set-sylvester-stallone-1235476408/|work=The Hollywood Reporter|title=Sylvester Stallone Sets 'Cliffhanger' Reboot With 'Angel Has Fallen' Director|author=Kit, Borys|date=May 1, 2023|accessdate=May 4, 2023}}&lt;/ref&gt;&lt;ref name=&quot;Sequel_Variety&quot;&gt;{{cite web|url=https://variety.com/2023/film/news/sylvester-stallone-cliffhanger-reboot-ric-roman-waugh-1235599620/|work=Variety|title=Sylvester Stallone Returning for 'Cliffhanger' Reboot, Ric Roman Waugh Directing|author=Lang, Brent|date=May 1, 2023|accessdate=May 4, 2023}}&lt;/ref&gt; In December of the same year, it was announced that [[Jean-François Richet]] had replaced Waugh as director; while additional film studios joined the project including [[FilmFernsehFonds Bayern]], Black Magic Films, Supernix, Maze Pictures, and Occupant Entertainment. 579 The Cannon Group's biggest financial success was with the 1986 action film ''[[Cobra (1986 film)|Cobra]]'', which starred [[Sylvester Stallone]]; not a low-budget film, it earned $160 million on a $25 million budget.

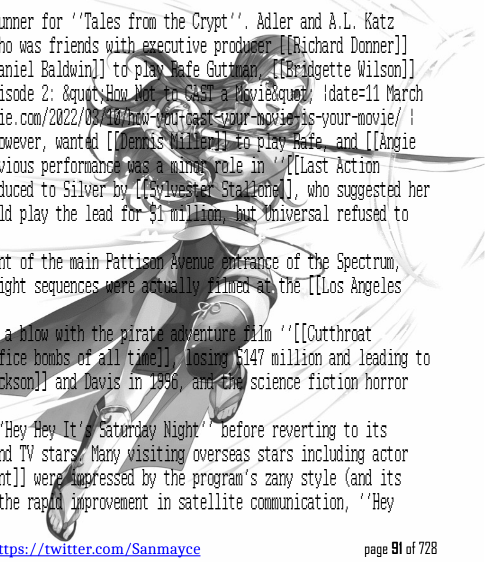
583 A [[statue]] of [[Sylvester Stallone]], depicted in his role of Philadelphia [[boxing|boxer]] [[Rocky Balboa]], stood for many years in front of the main Pattison Avenue entrance of the Spectrum, which had been represented in the movie as the site of Rocky's [[Rocky|first]] and [[Rocky II|second]] fights with [[Apollo Creed]]. (The fight sequences were actually filmed at the [[Los Angeles Memorial Sports Arena]].) The statue was removed several times over the years to be used in the filming of sequels to the original film.

584 1993's action thriller ''[[Cliffhanger (film)|Cliffhanger]]'' was Harlin's first film with [[Sylvester Stallone]]. Harlin's career suffered a blow with the pirate adventure film ''[[Cutthroat Island]]'' in 1995, which starred Harlin's then-wife, [[Geena Davis]]. ''Cutthroat Island'' was one of the biggest [[box-office bomb|box-office bombs of all time]], losing $147 million and leading to the bankruptcy of [[Carolco Pictures]]. Harlin did go on to have moderate success with ''[[Long Kiss Goodnight]]'', starring [[Samuel L. Jackson]] and Davis in 1996, and the science fiction horror film ''[[Deep Blue Sea (1999 film)|Deep Blue Sea]]'' in 1999.

585 In 1984, the Nine Network moved the show from its morning timeslot to a [[primetime]] slot on Saturday nights, and it was briefly renamed ''Hey Hey It's Saturday Night'' before reverting to its original name. During this time, ''Hey Hey'' also became one of the most important TV venues for both local and international music, film and TV stars. Many visiting overseas stars including actor [[Sylvester Stallone]], singer [[Tom Jones (singer)|Tom Jones]], musician [[Stevie Ray Vaughan]], and professional wrestler [[André the Giant]] were impressed by the program's zany style (and its wide appeal) and made return appearances on subsequent visits. During its peak years, backed by the full resources of Nine and assisted by the rapid improvement in satellite communication, ''Hey Hey'' regularly travelled to locations all over Australia and even overseas for live broadcasts.



586 As an homage, actor [[Sylvester Stallone]] named his pet [[Bullmastiff]] ''Butkus'' after the dog ate a security blanket. He decided to name him after &quot;possibly the fiercest football player in history&quot;.&lt;ref&gt;{{cite book|last1=Shepatin|first1=Matthew|title=&quot;Then Madden Said to Summerall. . .&quot;: The Best NFL Stories Ever Told|date=2009|publisher=Triumph Books|isbn=978-1617491986|page=134|url=https://books.google.com/books?id=eBN5BweHdvUC&amp;pg=PT134|access-date=August 2, 2017}}&lt;/ref&gt; The dog later starred alongside Stallone in the ''[[Rocky (film series)|Rocky]]'' film series.&lt;ref name=Mullin/&gt;

587 In 2010, Statham appeared alongside fellow action stars [[Sylvester Stallone]], [[Jet Li]], [[Dolph Lundgren]] and [[Mickey Rourke]], among others, in the [[Ensemble cast|ensemble]] [[action film]] ''[[The Expendables (2010 film)|The Expendables]]''. The game was also inspired by the [[action film]] ''[[Rambo: First Blood Part II]]'' (1985), released as ''Rambo: Ikari no Dasshutsu'' (&quot;Rambo: The Furious Escape&quot;) in Japan. Obada had originally intended the game to be an official licensed adaptation of ''Rambo'', but SNK were initially unable to acquire the rights to the film. This resulted in the game's title being shortened to ''Ikari'', referencing part of the film's Japanese title. After the game made its North American debut at an arcade game expo, they got in touch with the film's star [[Sylvester Stallone]], who was friends with SNK's president, about acquiring the rights to the film, but it was too late by that point, as the game had already become popularly known by its Japanese title ''Ikari'' among arcade players in Japan and North America, leading to the game being officially released as ''Ikari Warriors'' in North America.&lt;ref name=&quot;Continue&quot;/&gt;
[[Sylvester Stallone]], whose role as [[John Rambo]] had an influence on the game, owned an ''Ikari Warriors'' arcade cabinet in the 1980s. The future [[mixed martial arts]] (MMA) champion [[Kazushi Sakuraba]] (later famous for defeating the [[Gracie family]] of [[Brazilian jiu-jitsu]] fighters) was also a fan of ''Ikari'' in his high school years.&lt;ref name=&quot;Continue&quot;/&gt;

Overseas, the film initially received a mixed reaction in contemporary English-language reviews. [[Kim Newman]] wrote, in the ''[[Monthly Film Bulletin]]'', that ''Police Story'' starts well with its car chase described as an &quot;astonishing set-piece&quot;, but that &quot;once the mix of realistic settings and fantasy action seems to have been established, the film falls back on Chan's clowning and turns into a slapstick comedy heavily dependent on cake-in-the-face jokes&quot;. The review concluded that the film &quot;still lacks much of the aesthetic appeal and occasional comic grace of the more traditional period kung fu films such as ''[[Project A (film)|Project A]]'', ''[[Drunken Master]]'', ''[[Snake in the Eagle's Shadow]]'' and ''[[Dragon Lord]]''&quot;.&lt;ref name=&quot;mfb-review&quot;&gt;{{cite journal|journal=[[Monthly Film Bulletin]]|title=Jingcha Gushi/Police Story|last=Newman|first=Kim|author-link=Kim Newman|volume=54|issue=637|pages=50-51|date=1987|publisher=[[British Film Institute]]|issn=0027-0407}}&lt;/ref&gt; [[Vincent Canby]] wrote in ''[[The New York Times]]'' that at a screening of the film at the [[New York Film Festival]] Chan was promoted as a hybrid of [[Buster Keaton]] and [[Clint Eastwood]], with Canby noting that Chan was &quot;more like a scaled-down, oriental [[Sylvester Stallone]], with energy and a willingness to smile fondly at himself&quot;. Canby also noted the excessive pie-in-the-face gags, and that Chan &quot;participates in several elaborately staged gun fights and car chases&quot; which were &quot;mildly amusing&quot; but not as amusing as the dubbed dialogue. {{Quote box |align=right |quoted=true |salign=center |width=20em |The original Rambo was so bloodthirsty... the story was so hard, so terrifying every step of the way. (I think that's one reason the book took so long to get done). What I did with Rambo was try to keep one foot in the Establishment and one foot in the outlaw or frontier image. I wanted him to be accepted by the mainstream-but also be a criminal. So he has some strong patriotic views-and he loves the system. The first rough cut of the film was between three and three-and-a-half hours long. According to Sylvester Stallone, it was so bad that it sickened his agent and him. Stallone wanted to buy the movie and destroy it thinking that it was a career killer. After heavy re-editing, the film was cut down to 93 minutes; this version was ultimately released in theaters.&lt;ref&gt;{{cite AV media|url=https://www.youtube.com/watch?v=tGYN0DBRVjI |archive-url=https://ghostarchive.org/varchive/youtube/20211222/tGYN0DBRVjI |archive-date=2021-12-22 |url-status=live|title=First Blood DVD Commentary

627 Gray began her career in the 1960s in television commercials. In the 1970s, she appeared in numerous TV series before landing the role of Sue Ellen Ewing in 1978. After leaving ''[[Dallas (1978 TV series)|Dallas]]'' in 1989, she appeared opposite [[Sylvester Stallone]] in the 1991 film ''[[Oscar (1991 film)|Oscar]]''. From 1994 to 1995, she played a leading role in the [[Fox Broadcasting Company|Fox]] drama series ''[[Models Inc.]]'', and also starred in TV movies, including ''[[Moment of Truth: Why My Daughter?]]'' (1993) and ''[[Accidental Meeting (1994 film)|Accidental Meeting]]'' (1994). She went on to reprise the role of Sue Ellen in ''[[Dallas: J.R. Returns]]'' (1996), ''[[Dallas: War of the Ewings]]'' (1998), and in the [[TNT (U.S. TV network)|TNT]] series ''[[Dallas (2012 TV series)|Dallas]]'' (2012-2014), which continued the original series.
628 After ''Dallas'', Gray starred in the 1991 comedy film, ''[[Oscar (1991 film)|Oscar]]'' with [[Sylvester Stallone]] and then made guest appearances in British drama ''[[Lovejoy]]'' (starring her co-star and love interest from her final season on ''Dallas'', [[Ian McShane]]). She also starred in several made-for-TV movies, including 1991's ''The Entertainers'' (with [[Bob Newhart]]), ''[[Bonanza: The Return]]'' (1993), ''[[Moment of Truth: Why My Daughter]]'' (1993), and ''Accidental Meeting'' (1994).

647 '''''Daylight''''' is a 1996 American [[disaster film]] directed by [[Rob Cohen]] and starring [[Sylvester Stallone]], [[Amy Brenneman]], [[Viggo Mortensen]], [[Dan Hedaya]], [[Stan Shaw]], [[Jay O. Sanders]], [[Karen Young (actress)|Karen Young]] and [[Danielle Harris]]. Its plot concerns a group of people attempting to find their way out of an underground tunnel in [[Manhattan]], after explosions cause both ends of the tunnel to collapse.

648 * [[Sylvester Stallone]] as Chief Kit Latura, a disgraced former New York City Emergency Medical Services (EMS) chief who tries to save the survivors trapped inside the tunnel. Rob Cohen originally wanted [[Nicolas Cage]] to play Kit Latura, but Universal execs felt he was more of a &quot;character actor&quot;, and Stallone was more commercially viable

649 About the film, Stallone simply said: &quot;The premise was really good, but it didn't deliver&quot;.&lt;ref&gt;{{Cite web|url=https://variety.com/2019/film/features/sylvester-stallone-rocky-ownership-stake-1203275639/|title=Sylvester Stallone Feels Robbed of an Ownership Stake in 'Rocky': 'I Was Furious'|first1=Claudia|last1=Eller|date=July 23, 2019}}&lt;/ref&gt;

650 The film won a [[Golden Reel Award (Motion Picture Sound Editors)|Golden Reel Award]] for Best [[Sound editor (filmmaking)|Sound Editing]] and was nominated for an [[Academy Award]] in the same category ([[Richard L. It was also nominated for two [[Golden Raspberry Awards]], [[Golden Raspberry Award for Worst Actor|Worst Actor]] (Sylvester Stallone) and [[Golden Raspberry Award for Worst Original Song|Worst Original Song]] (''Whenever There Is Love''). For the 1996 [[Stinkers Bad Movie Awards]], Stallone was nominated for Worst Actor too.

652 Located at the confluence of the Caney Fork, the [[Collins River]] and the [[Rocky River (Tennessee)|Rocky River]], is Great Falls Lake. This [[reservoir (water)|reservoir]] is impounded by [[Great Falls Dam (Tennessee)|Great Falls Dam]], a project of the former [[Tennessee Electric Power Company]], now owned and operated by the [[Tennessee Valley Authority]] (TVA). This is the only dam outside of the [[Tennessee River]] drainage system directly operated by TVA. This dam impounds a very small but very deep lake due to the depth of the gorges carved by the rivers it impounds. This area was something of a resort area in the early 20th century when such projects were uncommon, especially in the southeastern [[United States]], but other than a few cabins, there is little evidence of this today, as the area has been largely supplanted by larger, more modern developments. The dam is named for the Great Falls of the Caney Fork, caused by the descent of the stream off of the [[Highland Rim]] to the level of the [[Nashville Basin]]. Located on the lake is [[Rock Island State Park (Tennessee)|Rock Island State Park]], developed on the site of former woolen mills in the 19th century predating the electrical development. This area was used for a considerable number of exterior shots and stunts in the [[Sylvester Stallone]] film, ''[[The Specialist]]''.

653 * [[Sylvester Stallone]] improvised an ad-hoc poncho from discarded industrial grade canvas as [[John Rambo]] on the set of the 1982 movie ''[[First Blood]]''. Behind the scenes when filming, Stallone found the leftover canvas underneath an abandoned truck and used his signature survival knife to make a hole in the top fold and turned it into the poncho worn by the Rambo character and describes it having saved him from the freezing cold bitter rain of Northern Canada.&lt;ref&gt;{{cite web | url=https://www.menshealth.com/entertainment/a20951712/sylvester-stallone-instagram-rambo-costume/ | title=Sylvester Stallone Just Revealed the Badass Story Behind His 'Rambo' Outfit | date=29 May 2018 }}&lt;/ref&gt;&lt;ref&gt;{{cite web | url=https://entertainment.ha.com/itm/movie-tv-memorabilia/costumes/-john-rambo-s-poncho-from-first-blood-/a/7111-89049.s | title=&quot;John Rambo's&quot; Poncho from &quot;First Blood.&quot;... With stunt choreographer Nick Powell, he underwent three months of extensive training in stunt work, the use of weapons, [[boxing]], and the Filipino martial art [[eskrima]]. 655 Carolco's first major success was ''[[First Blood]]'' (1982), an adaptation of [[David Morrell]]'s [[First Blood (novel)|novel of the same name]]. Kassar and Vajna took a great risk buying the [[film rights]] to the novel (for $385,000) and used the help of European bank loans to cast [[Sylvester Stallone]] as the lead character, [[Vietnam War]] veteran John Rambo, after having worked with him on the [[John Huston]] film ''[[Escape to Victory]]'' (1981). The risk paid off after ''First Blood'' made $120 million worldwide, and placed Carolco among the major players in Hollywood.&lt;ref name=&quot;prince&quot;&gt;Prince, p. 144.&lt;/ref&gt;

656 Carolco also attempted to make ''Bartholomew vs. Neff'', a comedy film that was to have been written and directed by [[John Hughes (filmmaker)|John Hughes]] and would have starred [[Sylvester Stallone]] and [[John Candy]].&lt;ref&gt;{{cite news|title=SHORT TAKES : Stallone in Line for Comedy Role|date=30 July 1990|newspaper=[[Los Angeles Times]]|url=https://www.latimes.com/archives/la-xpm-1990-07-30-ca-997-story.html|access-date=26 February 2015}}&lt;/ref&gt;

657 Following the cancellation of ''The Bionic Woman'' in 1978, Wagner continued to act, predominantly in television miniseries and television films. These included the highly rated 1980 miniseries ''[[Scruples (TV miniseries)|Scruples]]'', as well as three made-for-TV ''Bionic'' reunion movies with Lee Majors between 1987 and 1994. 658 In his autobiography, McLean recounts that various [[film studio]]s had expressed an interest in making a film based on his life and career in unlicensed boxing. McLean wanted [[Craig Fairbrass]] to portray him as he had known the actor for some time, and considered Fairbrass resembled himself as a younger man. McLean travelled to Hollywood to discuss the matter with film studio executives, but their preference for [[Sylvester Stallone]] for the part caused McLean to discontinue negotiations. One supposed film promoter, later found to have been a conman, took more than a million pounds from McLean and disappeared. The plan fell into hiatus on McLean's death.{{fact|date=October 2023}}

677 '''Brigitte Nielsen''' ({{IPA|da|pʁiˈkitə ˈne̝lsn̩}}; born '''Gitte Nielsen'''; 15 July 1963) is a Danish actress, model, and singer. She began her career modelling for [[Greg Gorman]] and [[Helmut Newton]]. She subsequently acted in the 1985 films ''[[Red Sonja (1985 film)|Red Sonja]]'' and ''[[Rocky IV]]'', later returning to the [[Rocky (franchise)|''Rocky'' series]] in ''[[Creed II]]'' (2018). Nielsen married [[Sylvester Stallone]], with whom she starred in the 1986 film ''[[Cobra (1986 film)|Cobra]]''. She played a villain in ''[[Beverly Hills Cop II]]'' (1987) and starred as the Black Witch in the 1990s Italian film series ''[[Fantaghirò series|Fantaghirò]].'' She later built a career starring in [[B movie|B-movie]]s, hosting TV shows, and appearing on reality shows.

678 In 1985, Nielsen began her acting career in the fantasy film ''[[Red Sonja (1985 film)|Red Sonja]]'' alongside [[Arnold Schwarzenegger]]. That same year, she married [[Sylvester Stallone]]; the couple acted in two films together (''[[Rocky IV]]'' and ''[[Cobra (1986 film)|Cobra]]'') before divorcing in 1987.

684 ''The Beaver Trilogy'' combines three separate vignettes that were filmed at different times, in 1979, 1981, and 1984. The first, titled ''The Beaver Kid'', is a short documentary about the exploits of &quot;Groovin' Gary&quot;, a performer that filmmaker Harris happened upon while filming for a [[Salt Lake City, Utah]] news station. Harris was in the parking lot of his workplace, testing out a [[color|color video]] [[video camera]] that the station had just acquired, when he stumbled upon Gary taking photographs of their news [[helicopter]]. Gary immediately launched into a number of celebrity impressions, including [[John Wayne]] and [[Sylvester Stallone]].

[[David Carradine]] stars as &quot;Frankenstein,&quot; the leading champion of the race, who is targeted by an underground rebel movement seeking to abolish the race. The cast also features [[Simone Griffeth]], [[Sylvester Stallone]], [[Mary Woronov]], [[Martin Kove]], and [[Don Steele]].

687 * [[Sylvester Stallone]] as &quot;Machine Gun&quot; Joe Viterbo

688 [[Sylvester Stallone]] was cast after Corman saw his performance in ''[[The Lords of Flatbush]]'' (1974).&lt;ref name=&quot;:2&quot; /&gt; Up until his star-making role in ''[[Rocky]]'' the following year, ''Death Race 2000'' was the actor's highest-profile performance.&lt;ref name=&quot;:1&quot; /&gt; At Bartel's direction, Stallone rewrote much of his character's dialogue.

689 Due to the film's low-budget, many scenes were shot on public roadways.&lt;ref name=&quot;:2&quot; /&gt; David Carradine and Sylvester Stallone performed most of their own driving stunts.&lt;ref name=&quot;:2&quot; /&gt; According to Corman, the custom-built cars were not street legal, and the stunt drivers refused to drive them where they could potentially be apprehended by police.&lt;ref name=&quot;:2&quot; /&gt; Meanwhile, [[Mary Woronov]] did not know how to drive a car, so her close-ups were shot with her car towed behind a flatbed truck.&lt;ref name=&quot;:2&quot; /&gt;

690 The film was nominated for two [[Golden Raspberry Award]]s: Burt Reynolds was nominated for [[Golden Raspberry Award for Worst Actor|Worst Actor]] and Christopher Reeve for [[Golden Raspberry Award for Worst Supporting Actor|Worst Supporting Actor]]. However, they respectively &quot;lost&quot; to [[Sylvester Stallone]] for ''[[Rambo III]]'' and [[Dan Aykroyd]] for ''[[Caddyshack II]]''.

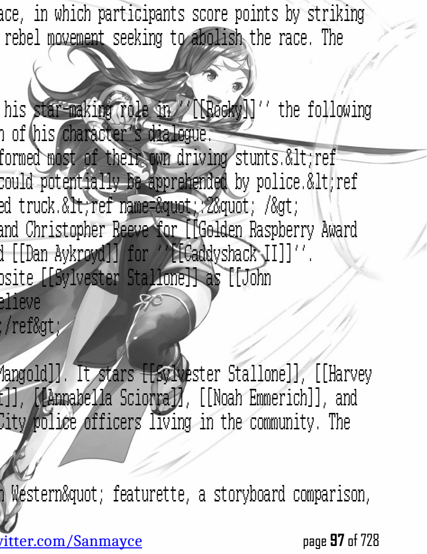
693 '''''Cop Land''''' is a 1997 American [[neo-noir]] [[Crime film|crime]] [[Drama (film and television)|drama film]] written and directed by [[James Mangold]]. It stars [[Sylvester Stallone]], [[Harvey Keitel]], [[Ray Liotta]], and [[Robert De Niro]] as the main cast, with [[Peter Berg]], [[Janeane Garofalo]], [[Robert Patrick]], [[Michael Rapaport]], [[Annabella Sciorra]], [[Noah Emmerich]], and [[Cathy Moriarty]] in supporting roles. Stallone portrays the sheriff of a small New Jersey town who comes into conflict with the corrupt New York City police officers living in the community. The film received positive reviews and grossed $63.7 million on a $15 million budget.

694 * [[Sylvester Stallone]] as Sheriff Freddy Heflin

695 Extras include an audio commentary (with James Mangold, Sylvester Stallone, Robert Patrick, and producer Cathy Konrad), &quot;The Making of an Urban Western&quot; featurette, a storyboard comparison, two deleted scenes and the theatrical trailer.



696 The film posted solid box-office takings, got good reviews, and Stallone received positive critical notices for his performance. Yet Stallone has said the film was bad for his career. In a 2019 interview Stallone called Mangold &quot;the best director I ever worked with [but the film] actually worked in reverse. 800 ''''''Staying Alive'''''' is a 1983 American [[dance in film|dance]] [[drama film]] and the [[sequel]] to ''[[Saturday Night Fever]]'' (1977). The film was directed by [[Sylvester Stallone]], who co-produced and co-wrote the film with original ''Fever'' producer [[Robert Stigwood]], and writer [[Norman Wexler]]. ''Staying Alive'' stars [[John Travolta]], reprising his ''Saturday Night Fever'' role as Tony Manero, with [[Cynthia Rhodes]], [[Finola Hughes]], [[Joyce Hyser]], [[Julie Bovasso]], [[Viktor Manoel]] and [[Kevyn Morrow]].

801 ''Staying Alive'' was theatrically released on July 15, 1983, to universally negative critical reviews, and is the oldest film to hold a [[List of films with a 0% rating on Rotten Tomatoes|score of 0%]] on [[Rotten Tomatoes]]. Despite this, ''Staying Alive'' was successful at the box office, earning $127 million worldwide on a $22 million budget. The film also featured the song &quot;[[Far from Over (Frank Stallone song)|Far from Over]]&quot; by [[Frank Stallone]], the younger brother of [[Sylvester Stallone]]. &quot;Far from Over&quot; peaked at #10 on the [[Billboard Hot 100|''Billboard'' Hot 100]] and the ''[[Cashbox (magazine)|Cashbox]]'' charts. Along with ''[[Homefront (2013 film)|Homefront]]'' (2013), this is one of only two films that Stallone wrote without starring (although he has an uncredited [[cameo appearance]]).

841 [[Michael Caine]]'s role was originally relegated to a one-scene [[cameo appearance]], which he agreed to do as a favor to his friend Sylvester Stallone. However, after a test screening, additional scenes were scripted and shot to expand this role.

842 Later Stallone said: &quot;Believe it or not, I think ''Get Carter'' was really underrated. That was a big disappointment. 853 Hulk Hogan popped up in ''Rocky III'', and in ''No Holds Barred'' he achieves the rare feat of making [[Sylvester Stallone]] seem sophisticated.

854 The fact that nothing about Mr. Hogan really adds up no doubt helps account for his popularity. His sober speaking voice outside of the ring does not match his wild roars when doing battle. The amused gleam in his eye hints at a canny intelligence behind the sinew and sweat. And his exaggeratedly stagy bouts make only a token attempt to look real. More than Sylvester Stallone or [[Arnold Schwarzenegger]], Mr. Hogan behaves like a self-invented [[comic-book]] character sprung to life.

919 James agreed that the official reason Konchalovsky was fired was because of the budget, but he also said that going over budget was not Konchalovsky's fault, and that Konchalovsky did not deserve to be fired. Konchalovsky, however, had nothing but praise for Sylvester Stallone, and both he and James said that despite Stallone's ego and decision to fire the original cinematographer, and the fact that he had a hand in Konchalovsky's firing, Stallone was the one person who held the project together, and that he was a constant voice of reason on an increasingly chaotic set. According to Konchalovsky, by the end of principal photography, Stallone was unofficially working as producer, director and writer, as well as star, and Konchalovsky believes that had it not been for Stallone, Peters would have fired him much sooner than he did. In an interview with ''[[Ain't It Cool News]]'' in December 2006, Sylvester Stallone was asked why the film did not get a wide release and then answered:

During the original filming of ''D-Tox'' in 1999, Sylvester Stallone became attached to star in another Universal produced film, an action horror entitled ''Fatalis''. Written by novelist [[Jeff Rovin]] in 1998 and sold to Universal for over a million dollars, the script for the film concerned a huge pack of [[Smilodon|saber-toothed tigers]] who come back to life after an [[El Niño]] hurricane awakens them from being frozen inside an ancient sinkhole for thousands of years. They start attacking any humans they run into while moving down the mountains and through the woods before eventually attacking [[Los Angeles]].&lt;ref&gt;{{Cite web|url=https://gointothestory.blcklst.com/the-definitive-spec-script-sales-list-1991-2012-1998-918113f4199a|title = The Definitive Spec Script Sales List (1991-2012): 1998|date = 10 April 2018}}&lt;/ref&gt;&lt;ref&gt;{{Cite web|url=https://www.empireonline.com/movies/news/eye-tiger/|title=Eye of the Tiger|date=22 October 1998 }}&lt;/ref&gt; Rovin, who wrote the novelization of Stallone's ''[[Cliffhanger (film)|Cliffhanger]]'' (1993) and his biography, wrote ''Fatalis'' with Stallone in mind for the lead role of an anthropologist who, along with a female reporter he befriends, wants to capture the tigers alive as they are our last link with the past, however the local sheriff wants to destroy them. The film went into pre-production by 2000, but following the huge failure of ''D-Tox'' and Stallone's other films, Universal ceased production and it went unproduced, though Rovin later turned his script into very successful novel of the same name. Rovin did the same with ''Vespers'', another cancelled action-horror film from around the same time, which would have focused on [[Pteropus|giant bats]] that attack [[New York City]]. When asked in 2021 about the chances of ''Fatalis'' being produced twenty years later, Rovin revealed that Stallone still owns the rights to the original story, and he suspects it will [[development hell|not be produced]].&lt;ref&gt;{{Cite web|url=https://stallonezone.com/fatalis061100.html|title = Stallone Zone News: Fatalis Now Available}}&lt;/ref&gt;&lt;ref&gt;{{Cite web|url=https://stallonezone.com/wordpress/?page_id=32|title = &quot;Unmade&quot;|date = 11 October 2008}}&lt;/ref&gt;&lt;ref&gt;{{cite web | url=https://www.goodreads.com/book/show/1081426.Fatalis | title=Fatalis }}&lt;/ref&gt;&lt;ref&gt;{{Cite web|url=https://www.goodreads.com/author/11762.Jeff_Rovin/questions|title = Jeff Rovin answers your questions - Ask the Author}}&lt;/ref&gt;

'''''Rhinestone''''' is a 1984 American [[musical film|musical]] [[comedy film]] directed by [[Bob Clark]] from a screenplay by [[Sylvester Stallone]] and [[Phil Alden Robinson]] and starring Stallone, [[Dolly Parton]], [[Richard Farnsworth]] and [[Ron Leibman]]. It is based on the 1975 hit song &quot;[[Rhinestone Cowboy]]&quot; written by [[Larry Weiss]]. Although a critical and financial failure, the film spawned two top 10 country hits for Parton.

Sylvester Stallone was tentatively set to do a film for Paramount before beginning production on ''Rhinestone'' for Fox. The Paramount producers, [[Don Simpson]] and [[Jerry Bruckheimer]], were encountering the same problems as their Fox counterparts, after offering Stallone the lead in ''[[Beverly Hills Cop]],'' Stallone told the Paramount executives he wanted to make a few changes and then proceeded to rewrite the script. Simpson and Bruckheimer, with more experience producing big-budget, high concept projects, than the executives at Fox, responded by saying that they didn't want to film the script as rewritten and promptly exited talks with Stallone and his representatives.&lt;ref name=&quot;:0&quot;&gt;{{Cite book |last=Litwak |first=Mark |url=https://archive.org/details/reelpowerstruggl00litw |title=Reel Power: The Struggle for Influence and Success in the New Hollywood |publisher=William Morrow and Company |year=1986 |isbn=9780688048891 |location=New York City, New York |pages=28 |language=English}}&lt;/ref&gt;

According to Robinson, Stallone did two drafts, one worse than the other. Stallone had, in a few short weeks, thrown out what had taken Robinson a year to write. Stallone changed the attitude of his character, making him more streetwise and less vulnerable.&lt;blockquote&gt;''&quot;Stallone's script read very much like a first draft'',&quot; according to one observer. “''You didn't sense a lot of work went into the choices. There had been a lot of texture in the screenplay, a lot of charm, and the characters were very well defined and they went through carefully plotted-out progressions of character change. All that was gone''.” The original script worked hard to keep out clichés. Stallone added them.&lt;/blockquote&gt;Fox executives agreed that Stallone's changes by and large hurt the script. With seven weeks to go before the start of principal photography, the studio said they would not make the movie on the basis of the revised script. Phil Alden Robinson was brought back in and asked to ''“restore the charm''” of the original, and “''put those great characters back''',” without changing any of the dialogue Sylvester Stallone had written for himself. Robinson objected, telling Fox executive Joe Wizan that what was wrong with the script was the awful dialogue. Wizan replied: “''Welcome to Hollywood''.” Robinson reluctantly agreed to the studio's restrictions on the rewrite. He says he was able to solve some structural problems and tried to make sense of Stallone's changes. When he turned it in, the studio said the new script was great, and one executive vowed that Stallone was either going to do it as written or walk. When they showed the changes to Stallone he said, “''Fine, fine. I just have a few changes to make''.” Stallone then proceeded to restore most of his changes.

Three weeks into production, Don Zimmerman was fired. His contract was settled and the production shut down while the studio sought a new director. [[Creative Artists Agency|CAA]] proposed that Fox hire [[Bob Clark]], who had directed the hit film Porky's, which Fox had distributed&lt;ref&gt;{{Cite book |last=Litwak |first=Mark |title=Reel Power: The Struggle for Influence and Success in the New Hollywood |publisher=William Morrow and Company |year=1986 |isbn=9780688048891 |location=New York City, New York |pages=25-26 |language=English}}&lt;/ref&gt;-contrary to Stallone's later statement's, director [[Mike Nichols]] was never considered for, much less affiliated with ''Rhinestone''. Nichols was still very loyal to his agent [[Sam Cohn]], with [[ICM Partners|ICM]], throughout the 1980s;&lt;ref&gt;{{Cite news |last=Weinraub |first=Bernie |date=August 23, 1993 |title=The Talk of Hollywood; Movers and Shakers Shaken Up By a Move |pages=11 |work=The New York Times |url=https://www.nytimes.com/1993/08/23/movies/the-talk-of-hollywood-movers-and-shakers-shaken-up-by-a-move.html |access-date=July 3, 2023 |archive-url=https://archive.today/20230629005202/https://www.nytimes.com/1993/08/23/movies/the-talk-of-hollywood-movers-and-shakers-shaken-up-by-a-move.html |archive-date=June 29, 2023}}&lt;/ref&gt; and CAA oversaw principle talent (package) acquisitions on ''Rhinestone'', during this time. Since the new director had to be acceptable to Sylvester Stallone, it didn't hurt that both were represented by CAA. Clark reportedly received $1 million to direct, plus a guaranteed fee for his next project at Fox, whether or not it was ever produced. That project is reputed to have been previously rejected by the studio. The first three weeks of filming were thrown out (all footage directed by Zimmerman, including location work in New York City and Nashville). Knowing his reputation for problem sets, Sylvester Stallone was anxious not to be cast as the villain in this production switch so he told a reporter that the change had been made because studio executives were panicked when the film fell behind schedule.&lt;ref&gt;{{Cite book |last=Daly |first=Marsha |url=https://archive.org/details/sylvesterstallon0000daly |title=Sylvester Stallone |publisher=St. Martin's Press |year=1986 |isbn=9780312903589 |edition=mass market |location=New York City, New York |pages=134 |language=English}}&lt;/ref&gt;

Phil Alden Robinson publicly distanced himself from the film during its release.&lt;ref name=&quot;rhine&quot;/&gt; Robinson took the highly unusual step of mounting his own publicity campaign, criticizing the movie, saying that the humor and intelligence of the original script had been replaced with vulgarity, caricature and farce. Disassociating himself from the picture, he sent letters to film critics explaining what had happened to his script. It was, he said, a textbook example of a studio willingly sacrificing the quality of a script for what was perceived as the marketability of star casting.&lt;ref name=&quot;:0&quot; /&gt;&lt;blockquote&gt;&quot;''I thought a long time before speaking out'',&quot; Robinson says. &quot;''Of course the conventional wisdom is that you don't open your mouth. But I was having a hard time living with that. I wrote letters and I gave interviews and I did a lot of press. I couldn't do nothing. I mean, I was doing nothing and I couldn't keep doing that. I would rather take the heat for saying what I believe and for telling the truth than to just let the industry know you can do this to me. And so I did a lot of press and got no heat. Stallone called my agent and was furious but that was it. People at studios, even at Fox, called to say we're glad you did that and it's about time somebody said these things. Writers, of course, were thrilled. I actually got calls from people who worked on the movie, from agents, and who were allied with Stallone, saying, we're glad you did that, we can't say this to Sly, but you're right.''&quot; &lt;ref name=&quot;:1&quot; /&gt;&lt;/blockquote&gt;In her 1994 autobiography, Parton said of the film “I guess the public didn't want to see Sylvester Stallone do comedy - or see me do Sylvester Stallone.&quot;&lt;ref&gt;{{cite magazine |first=Stephen |last=Betts |title=The 50 Best Dolly Parton Songs|url=https://www.rollingstone.com/music/music-lists/best-dolly-parton-songs-1234701711/tennessee-homesick-blues-1234701802/ |magazine=Rolling Stone |date = April 5, 2023|access-date=April 14, 2023}}&lt;/ref&gt;

988 He appeared mostly in low-budget action and [[martial arts]] films such as ''Jungle Rats'' (1987), and ''Black Fire'' (1985), during the 80's, often directed by [[Teddy Page]] and [[John Gale (director)]]. The vast majority of Kristoff's films were produced by [[K.Y. The ''Silver Star'' films usually recycled the same cast of [[United States|American]] and [[Europe]]an [[Z-movie]] workhorses from one film to another. He became something of a star for ''Silver Star'', appearing in several leading roles throughout the 80's, most prominently in ''Slash'' (1984), a film influenced by the ''[[Rambo (film series)|Rambo]]'' films of [[Sylvester Stallone]] to the point of plagiarism.

994 '''''Judge Dredd''''' is a 1995 American [[science fiction film|science fiction]] [[action film]] based on the [[2000 AD (comics)|''2000 AD'' comics]] [[Judge Dredd|character of the same name]]. It is directed by [[Danny Cannon]] and stars [[Sylvester Stallone]] as the eponymous Judge Dredd, a law enforcement officer in the crime-ridden futuristic metropolis of [[Mega-City One]]. [[Armand Assante]], [[Diane Lane]], [[Rob Schneider]], [[Joan Chen]], [[Jürgen Prochnow]], and [[Max von Sydow]] appear in supporting roles. It was filmed entirely at [[Shepperton Studios]] in the United Kingdom, and released by [[Buena Vista Pictures]] on June 30, 1995.

1000 &lt;blockquote&gt; I loved that property when I read it, because it took a genre that I love, what you could term the 'action morality film' and made it a bit more sophisticated. It had political overtones. It showed how if we don't curb the way we run our judicial system, the police may end up running our lives. It dealt with archaic governments; it dealt with cloning and all kinds of things that could happen in the future. It was also bigger than any film I've done in its physical stature and the way it was designed. All the people were dwarfed by the system and the architecture; it shows how insignificant human beings could be in the future. There's a lot of action in the movie and some great acting, too. It just wasn't balls to the wall. But I do look back on ''Judge Dredd'' as a real missed opportunity. It seemed that lots of fans had a problem with Dredd removing his helmet, because he never does in the comic books. But for me it is more about wasting such great potential there was in that idea; just think of all the opportunities there were to do interesting stuff with the Cursed Earth scenes. It didn't live up to what it could have been. It probably should have been much more comic, really humorous, and fun. What I learned out of that experience was that we shouldn't have tried to make it ''Hamlet''; it's more ''Hamlet and Eggs''.&lt;ref&gt;Sylvester Stallone interviewed in ''Uncut'' #131 (April 2008), p.118&lt;/ref&gt;&lt;/blockquote&gt;

1005 Casting started to take place, and Alexander Salkind wanted a famous actor in the role of [[Superman]]. [[Dustin Hoffman]] was once again highly considered though the idea was dropped. [[Robert Redford]] was offered the part, but he felt he was too famous and was not right for the role, as did [[Burt Reynolds]]. 1009 '''''The Party at Kitty and Stud's'''''{{hsp}}{{efn|name=fn1|Contemporary newspaper listings give the film's full title as ''The Party at Kitty and Stud's '''Place'''''.}} is a 1970 American [[softcore pornography|softcore]] [[Pornographic film|pornographic]] [[romance film]] directed, written &amp; produced by Morton Lewis and starring [[Sylvester Stallone]] in his first starring and leading role.  Stallone worked two days and was paid $200. Shortly after the 1976 release of ''[[Rocky]]'', ''The Party at Kitty and Stud's'' was edited and re-released as '''''Italian Stallion''''' to capitalize on its now-famous star.

1011 According to Stallone, the film was financed by &quot;a group of wealthy lawyers, very, very solid.&quot; The actor said in a 1978 ''[[Playboy]]'' interview that he had done the film out of desperation after being bounced out of his apartment and finding himself [[homelessness|homeless]] for several days, sleeping in a New York City bus station in the middle of winter. In Stallone's words: &quot;It was either do that movie or rob someone because I was at the end-at the very end-of my rope. Instead of doing something desperate, I worked two days for $200 and got myself out of the bus station&quot;. The actor also called the film &quot;horrendous&quot; and commented &quot;By today's standards, the movie would almost qualify for a [[PG-Rating#Ratings|PG rating]]&quot;.&lt;ref name=&quot;playboy&quot;&gt;{{cite magazine|author=&lt;!--Staff writer(s); no by-line.--&gt;|title=The Playboy interview: Sylvester Stallone|url=http://www.playboy.com/arts-entertainment/features/sylvester-stallone/sylvester-stallone-04.html|date=September 1978|magazine=[[Playboy]]|publisher=[[Playboy Enterprises]]|accessdate=9 November 2017|archiveurl=https://web.archive.org/web/20110424055949/http://www.playboy.com/arts-entertainment/features/sylvester-stallone/sylvester-stallone-04.html|archivedate=24 April 2011}}&lt;/ref&gt;

1013 Stallone has stated that after ''Rocky'' became a hit, the owners of ''The Party at Kitty and Stud's'' offered to sell him the rights to the film for about US$100,000 in order to prevent its re-release, but the actor &quot;wouldn't buy it for two bucks&quot;.&lt;ref name=&quot;playboy&quot;/&gt; The film was then rereleased in theaters under the new title ''The Italian Stallion''. 1015 '''''Avenging Angelo''''' is a 2002 American [[direct-to-video]] [[action comedy film]] directed by [[Martyn Burke]] and starring [[Sylvester Stallone]], [[Madeleine Stowe]], and [[Anthony Quinn]]. The film received mostly negative reviews.
1016 Frankie Delano ([[Sylvester Stallone]]) has spent his life safeguarding Angelo as well as Angelo's daughter, Jennifer Barrett ([[Madeleine Stowe]]), whose unsavory husband Kip Barrett ([[Harry Van Gorkum]]) has had their young son Rawley (Ezra Perlman) placed in a boarding school against Jennifer's wishes.

1018 The first film Kassar and Vajna ventured together was ''[[The Sicilian Cross]]'', a 1976 [[Italian language|Italian]] film that starred [[Roger Moore]].  They bought the rights to the film for $130,000. Kassar flew to [[Asia]] and sold it for $220,000.&lt;ref name=ew/&gt; By the early 1980s, Vajna and Kassar had bought a small office in [[Melrose Avenue]]. 1022 '''''Driven''''' is a 2001 American [[Action film|action]] [[sports film]] directed by [[Renny Harlin]] and starring [[Sylvester Stallone]], who also wrote and produced. It centers on a young racing driver's effort to win the [[Championship Auto Racing Teams|CART FedEx Championship Series]] auto racing championship. Prior to production, Stallone was seen at many [[Formula One]] races, but he was
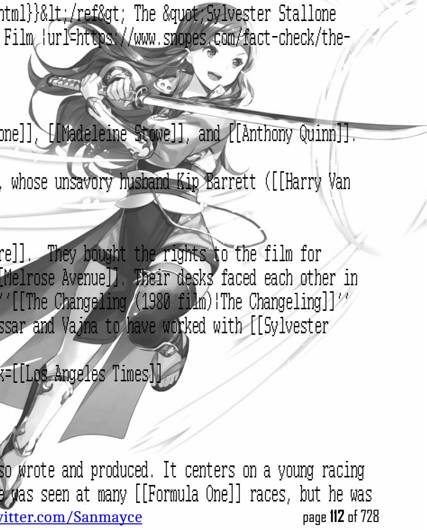
```



unable to procure enough information about the category due to the secrecy with which teams protect their cars, so he decided to base the film on [[Championship Auto Racing Teams|CART]].

1024 &lt;blockquote&gt;And of those, about 20 were about this one man's journey, myself, through this film, and all his trials and tribulations. He'd fallen from a great height career-wise. He was a drunkard with all these problems and accidents because he and his wife Cathy, who's played by Gina Gershon, had this very tumultuous relationship. (Laughs) I'm giving you a little biographical hint here. And he just started to come apart. So he was brought back as kind of like how people should never be. It's like taking kids who are truants and then taking them to prison to see where they'll end up and scaring them straight. So I was brought back to basically prove to young Jimmy Bly how he should never be, as a bad example. And then the more we worked on it, it became the dark side, a little seedy, and I didn't know where the upside of it was ever going to be. So we began to reduce his role and make it more of an ensemble, so he's just there as a guy who did his job, wasn't very spectacular, would race like hell, sometimes he'd win, sometimes lose, but he had a certain work ethic code, that old school that could be applied to Jimmy. So that all made it more ensemble, and then in the editing we reduced it even more. I originally had a relationship going with the reporter. But that began to de-emphasise the other people, so we put that on the back burner... So we did shoot it but it we said, &quot;Nah, it's not really flying.&quot;&lt;ref name=&quot;cinema&quot;&gt;{{cite web|url=http://cinema.com/articles/340/driven-interview-with-sylvester-stallone.phtml|title=Driven : Interview With Sylvester Stallone}}&lt;/ref&gt;&lt;/blockquote&gt;

1025 Stallone and Harlin had previously worked together on ''Cliffhanger''. Harlin had been trying to develop a film on the life of [[Ayrton Senna]] and when that fell through signed on to make ''Driven''.&lt;ref&gt;{{cite web|url=https://news.google.com/newspapers?nid=1346&amp;dat=20010503&amp;id=OtROAAAAIBAJ&amp;sjid=__0DAAAAIBAJ&amp;pg=6241,946219&amp;hl=en|title=Lakeland Ledger - Google News Archive Search}}&lt;/ref&gt;&lt;ref&gt;{{cite web|url=http://au.ign.com/articles/2001/04/13/ign-filmforce-interview-with-sylvester-stallone|title=IGN FilmForce Interview with Sylvester Stallone|first=Steve|last=Head|date=13 April 2001 }}&lt;/ref&gt;

1026 When Sylvester Stallone's character arrives at a race early in the film, there's a long shot of him walking in, saying hello to various people. One very brief uncredited cameo contains Dustin Hoffman, in racing gear.

Malmuth, en route from Los Angeles to New York City, was unable to make the first day of shooting after Nelson's removal and Stallone shot a scene for one day (the chase in the subway). According to the [[Directors Guild of America]], &quot;Anyone signed to work on a movie before the director was engaged cannot replace a fired director, except in an emergency&quot;; arbitration resulted in a fine.&lt;ref name=&quot;afi.com&quot;/&gt; In preparation for their roles as New York City police officers, Billy Dee Williams and Sylvester Stallone spent several weeks working at night with the New York [[Street Crimes Unit]].

1066 &lt;blockquote&gt;The stunts in the film were pretty extraordinary because they were invented along the way. Running through the tunnels of an un-built subway station was very dangerous, but exciting and we were only given one hour to do it. So that made for an interesting evening. Hanging from the cable car was probably one of the more dangerous stunts I was asked to perform because it was untested and I was asked to hold a folding [[Gerber Legendary Blades¦Gerber knife]] in my left hand so if the cable were to snap, and I survived the 230 foot fall into the [[East River]] with its ice cold 8 mile an hour current, I could cut myself free from the harness because the cable when stretched out weighed more than 300 lbs. I tell you this because it's so stupid to believe that I would survive hitting the water so to go beyond that is absurd. So I actually thought the smart move would be to commit hari-kari on the way down and let the cards fold as they may. P.S. Several years later this cable did snap while testing it on a 100lb bag of sand.&lt;ref name= &quot;aicn&quot;&gt;{{cite news¦title=Round One With Sylvester Stallone Q&amp;A‼¦publisher=[[Ain't It Cool News]]¦ date=December 1, 2006¦ url=http://www.aintitcool.com/node/30861¦access-date=2008-06-19}}&lt;/ref&gt;&lt;/blockquote&gt;

1067 In a 1980 interview with [[Roger Ebert]], Stallone mentioned problems with stunts he wanted to perform himself in ''Nighthawks''. In the scene where he jumps onto a moving train and kicks out the wire-reinforced window, the window broke easily and knocked him off balance. Stallone has had a lifelong fear of heights and said about the helicopter stunt, &quot;I've never been so scared in my life&quot;. According to the actor, he spent 15 weeks in near-total seclusion in his hotel room between scenes and it was the most stressful time of his life.&lt;ref&gt;{{cite web¦url=http://www.rogerebert.com/interviews/interview-with-sylvester-stallone-1980¦title=Interview with Sylvester Stallone (1980) - Interviews - Roger Ebert¦first=Roger¦last=Ebert}}&lt;/ref&gt;

1068 In 2021 interview for Collider while he was promoting his new director's cut of ''[[Rocky IV]]'' (1985), Stallone said how some of his other films he would have loved to re-edit back to their original versions were ''[[Rocky V]]'' (1990), ''[[Paradise Alley]]'' (1978), and ''Nighthawks''. 1069 In her review for ''[[The New York Times]]'', [[Janet Maslin]] praised Hauer's performance: &quot;Mr. Hauer's terrorist, in particular, is a sharply drawn character who acts as a driving force within the movie's scheme. 1103 However, advancements in [[digital compositing]] and the increasing use of digital cameras have made digital the most common method of choice. The last major [[blockbuster (entertainment)|blockbuster]] to extensively use front projection was the [[Sylvester Stallone]] [[Action film|action thriller]] ''[[Cliffhanger (film)|Cliffhanger]]'' from [[1993 in film|1993]].{{citation needed|date=December 2012}} More recently, the film ''[[Oblivion (2013 film)|Oblivion]]'' made extensive use of front projection (though not retro-reflective) to display various sky backgrounds in the home set. ''[[Spectre (2015 film)|Spectre]]'' also used this technique for its snow mountain hospital and glass building interiors. The advantages for the in-camera effect were a reduced need for digital effects and green screen, interactive lighting in a reflective set, and to provide a real background for the actors.

1105 In 1973, soon after the first film came out, producer [[Irwin Allen]] proposed a sequel that would have had the survivors testifying in a hearing on the disaster in [[Austria]], the country of the ''Poseidon''{{'}}s parent company. While on a train to the hearing, a miles-long mountain tunnel would collapse, leaving the survivors of the train trapped inside, struggling to make their way out. The film was planned to be released at Christmas 1974 from [[20th Century Fox]]. Most of the main cast was initially intended to reprise their roles from the first film.&lt;ref name=&quot;AFI&quot; /&gt; This premise was eventually used in the [[Rob Cohen]] film ''[[Daylight (1996 film)|Daylight]]'' (1996) with [[Sylvester Stallone]].&lt;ref&gt;From Special Edition DVD

1156 * [[Sylvester Stallone]], born Sylvester Enzio Stallone (July 6, 1946, in New York City) American film actor, director, producer and screenwriter. He is often referred to by his nickname, &quot;Sly&quot;. He achieved his greatest successes in a number of [[action film]]s, notably the ''[[Rocky (film series)|Rocky]]'' and ''[[Rambo (film series)|Rambo]]'' series. He was born to Frank Stallone Sr. (a beautician who was an immigrant from [[Castellammare del Golfo]], Sicily) and Jacqueline &quot;Jackie&quot; Labofish, an American astrologer of 1/4 Russian Jewish descent.

1158 Roderick Thorp decided for the book to be a sequel to ''The Detective'' so it could be made into a follow-up film starring [[Frank Sinatra]] as Joe Leland. Thus, the storyline hypothetically takes place some four decades after its predecessor (as Leland was age thirty-six in that novel). Sinatra declined the offer. It was then offered to [[Arnold Schwarzenegger]], [[Sylvester Stallone]] and a number of other actors until Bruce Willis signed on for the role.&lt;ref&gt;{{cite web|url=http://www.thedailybeast.com/articles/2016/06/29/die-hard-how-bruce-willis-changed-the-movies.html|title='Die Hard': How Bruce Willis Changed the Movies|publisher= The Daily Beast Archive|date=2012-06-29|accessdate=2016-12-08}}&lt;/ref&gt;

1162 When the awards reach the Best Actor award, Dr. Zoidberg tosses presenter [[Billy Crystal]] off the stage and takes his place. In place of the fifth nominee, he substitutes Calculon. But when he sees his uncle's depression at being a has-been, Zoidberg announces him as the winner. In his acceptance speech, Harold Zoid says his nephew's gesture has made him realize that the award itself is secondary to the knowledge that someone, even if only one person, still respects him as a filmmaker. Calculon, somewhat chastened by this speech, decides not to kill him or the others. Fry and Leela finally escape from the tar pits and are allowed to enter the after party when the skeleton they are dragging is recognized as that of [[Sylvester Stallone]].

1163 The character has been adapted from the comics into various forms of media, including television series, feature films, and video games. King Shark made his live-action debut in the television series ''[[The Flash (2014 TV series)|The Flash]]'', voiced by [[David Hayter]] while [[Dan Payne]] portrayed his human form. In the [[DC Extended Universe]], King Shark was voiced by actor [[Sylvester Stallone]] and [[motion capture]]d by [[Steve Agee]] in the film ''[[The Suicide Squad (film)|The Suicide Squad]]'' (2021).

They also satirized French politicians, police,

[[trade union]]s, [[contemporary art]], [[fashion design]], [[advertising]], various television programs, and society at large. The program won two ''[[7 d'Or]]'' (the top French television award), and a video clip from the show, &quot;[[Auteuil, Neuilly, Passy]]&quot;, won two ''[[Victoires de la Musique]]''. Their most famous sketch is probably &quot;''[[Télémagouilles]]''&quot;{{Citation needed¦date=January 2020}} with its gimmick &quot;[[Stéphanie de Monaco]]&quot;; this sketch is a parody of most of TV games.

1168 Budgets for their films grew. However, with rather poor marketing, Savoy faced a major financial slump, only three years after being formed. For three years, Savoy then released box office failures including ''[[Exit to Eden (film)¦Exit to Eden]]'' and ''[[Getting Away with Murder (1996 film)¦Getting Away with Murder]]''. It also didn't help that two of its competitors in the independent film field, [[Miramax]] and [[New Line Cinema]], were bought out by majors ([[The Walt Disney Company]] and [[Turner Broadcasting]], respectively), giving them stability. As a result, Savoy focused on low-budget films and the occasional blockbuster, costing up to $80 million.&lt;ref name=&quot;ser&quot;&gt;Fabrikant, Geraldine. 1176 &lt;s&gt;*'''Delete''' - this is already included in the [[Daniel Brandt]] article. We cannot justify this when we are questioning whether major supreme court cases should be included. 1177 *'''Keep'''. Where to start? First of all, I've never noticed any AfD about notability of a USSC case, all of which are of course notable. Even so, the USSC (and any other court) may often cite case law from other jursidictions, so there is certainly no reason that a case from a lower court should not be encyclopedic just because it's from a lower court. I can't tell much about how important this particularly case really has been, but a draft-era case in which someone you so pointedly refer to as a &quot;draft dodger&quot; was cleared by a federal circuit court seems unquestionably notable to me. If [[Sylvester Stallone¦Sly]] had a similar legal case at this level, it should certainly be mentioned in wikipedia (but I see no mention of anything like that). 1202 ''No Exit'' received mixed to negative reviews. Writing for [[TV Guide]] and sister publication ''The Motion Picture Annual'', Robert Pardi found Wincott as limited as other action specialists such as [[Sylvester Stallone]], [[Dolph Lundgren]], [[Jean-Claude Van Damme]], and pointed to the purported hypocrisy of the film's anti-violence stance, saying: &quot;Since Wincott is a superb athlete, his fans may welcome this tedious trip to a death arena. But even diehard Wincott followers won't be fooled by the conspicuously shallow intercutting of flashbacks and flash-forwards, all leading to the same bloody conclusion: might makes right.&quot;&lt;ref&gt;{{cite book |editor=Grant, Edmond |last1=Pardi |first1=Robert |date=1998 |url=https://archive.org/details/motionpicturegui0000unse_d2w0/page/138/mode/2up |title=The Motion Picture - 1998 Annual (The Films of 1997) |location=New York |publisher=Cinebooks |pages=139-140 | isbn=0933997000}}&lt;/ref&gt; [[Ballantine Books]]' ''Video Movie Guide'' was not much impressed either, although it was more amicable towards its leading man, assessing that this &quot;[u]ltimately tedious ''[[Mortal Kombat]]''/''[[Street Fighter]]'' ripoff is buoyed somewhat by the undeniable video presence of star Jeff Wincott.&quot;&lt;ref&gt;{{cite book |last1=Martin |first1=Mick | last2=Porter |first2=Marsha |date=October 2001 |url=https://archive.org/details/isbn_9780345420961/page/364/mode/2up |title=Video Movie Guide 2002 |location=New York |publisher=Ballantine Books | page=365 |isbn=0345420969}}&lt;/ref&gt;

1203 They released only one album, ''Feel Lucky Punk?'', and an EP, ''Beginning to End'', on [[Mercury Records]] in 1995 and disbanded after the subsequent tour. &quot;Beginning to End&quot; was used in the soundtrack for the 1995 Sylvester Stallone film ''[[Assassins (1995 film)|Assassins]]''.&lt;ref&gt;{{Cite web|url=http://www.imdb.com/title/tt0112401/soundtrack|title=Assassins (1995) - IMDb| accessdate=22 September 2020|website=IMDb.com}}&lt;/ref&gt;

1204 * ''[[Nighthawks (1981 film)|Nighthawks]]'' (1981) - Wulfgar ([[Rutger Hauer]]) sets out to kill Irene DaSilva ([[Lindsay Wagner]]), unaware that it is Sgt. Dick DaSilva ([[Sylvester Stallone]]), who has donned women's clothing and a wig.

1205 In 2002, Joe joined forces with [[Merv Griffin]] and [[RKO Pictures]] as Executive Producer of the film [[Shade (film)|''Shade'']] - a movie that can be best described as being a cross between ''[[The Sting]]'' and ''[[Pulp Fiction]]''. The movie stars [[Jamie Foxx]], [[Gabriel Byrne]], [[Thandiwe Newton]], [[Sylvester Stallone]] and [[Melanie Griffith]]. Joe also serves as music supervisor on the film and will be overseeing the music on several other RKO films in the future. In April 2003, Joe Nicolo was honored by the Philadelphia Chapter of NARAS ([[The Grammys]]) by being awarded The Heroes Award as recognition of his outstanding work and contributions to the U.S. music industry on both a national and local level. In 2004, Joe entered into a production and distribution deal with Light-year/Warner Bros. Warners is currently distributing (for Joe's company Judgment Entertainment) a DVD series on funny cars and dragsters, ''Jailbait'', ''Laura Smiles'', as well as the Judgment Picture ''Shade''. Joe is also producing several new movie releases: ''[[Return to Sleepaway Camp]]'', ''[[Southern Gothic (2007 film)|Southern Gothic]]'' and ''[[Tooth and Nail (film)|Tooth and Nail]]''-both directed by Mark Young, and ''[[One Part Sugar]]'' starring [[Danny DeVito]], [[Justin Long]], and [[Dylan Walsh]].

1217 In 1998, de la Fuente was contracted by [[Sony]] and [[Telemundo]] for a drama series remake of ''[[Starsky and Hutch]]'' called ''Reyes y Rey''. The weekly hour format did not catch on with Hispanic viewers and it was soon cancelled. He was a guest star on ''[[Pensacola: Wings of Gold]]''. He has also appeared regularly on ''[[CSI: Miami]]'' and ''[[Family Law (American TV series)|Family Law]]''. He has starred opposite [[Sylvester Stallone]] in ''[[Driven (2001 film)|Driven]]'', in [[John Carpenter]]'s ''[[Vampires: Los Muertos]]'' with [[Jon Bon Jovi]], as well as the independent thriller ''Minimal Knowledge''.

1218 Solar Films was then formed in 1988 (one of the first films that distributed by Solar Films is [[Rambo III]] of [[Sylvester Stallone]]), bringing international films (and later, local films since 2009) to the Philippines. Since 2012, Solar has collaborated with independent film director [[Brillante Mendoza]] for a multiple film contract.&lt;ref&gt;{{Cite web |url=http://www.solarentertainmentcorp.com/about/page/solar_today |title=Solar Today |access-date=May 15, 2014 |archive-url=https://web.archive.org/web/20140517114818/http://www.solarentertainmentcorp.com/about/page/solar_today |archive-date=May 17, 2014 |url-status=dead }}&lt;/ref&gt; On March 18, 2015, Solar launched the Sinag Maynila film festival is, which featured five films from a talented group of directors, each with a different vision and approach. Gardell appeared as himself on the [[Comedy Central]] series ''[[Make Me Laugh]]''. Subsequently, he appeared on Miller's television program ''Dennis Miller'', telecast on the US financial news network [[CNBC]] (conducting &quot;man-on-the-street&quot; interviews). Notably, he created and staged an ''[[Saturday Night Live|SNL]]''-style charity performance of a piece called ''Winter Park Live'', the proceeds from which were donated to [[Comic Relief (charity)|Comic Relief]].

1224 Viktor Manoel has also appeared in film such as ''[[Staying Alive (1983 film)|Staying Alive]]''&lt;ref name=NYT/&gt; (1983) directed by [[Sylvester Stallone]], ''[[Breakin' 2: Electric Boogaloo]]''&lt;ref name=NYT/&gt; (1984), ''[[Glass Spider]]'' (1988) directed by David Mallet, and ''Female Perversions'' (1997) directed by Susan Streitfeld.

1226 Gale directed [[Richard Harrison (actor)|Richard Harrison]] in ''Intrusion Cambodia'' AKA ''Rescue Team'' (1981), also starring a cast of ''Silver Star'' workhorses such as [[Romano Kristoff]], James Gaines, and [[Mike Monty]]. The [[assistant director]] of ''Intrusion Cambodia'' was [[Teddy Page]], another prolific ''Silver Star'' director. Gale directed Kristoff and Monty again in ''Slash'' (1984), a film influenced by the [[Rambo (film series)|Rambo]] series starring [[Sylvester Stallone]], to the point of plagiarism. ''Slash'' also featured [[Nick Nicholson (actor)|Nick Nicholson]] and Gwendolyn Hung. Another film of debatable note was ''Commando Invasion'' (1986), which featured [[Gordon Mitchell]], Ken Watanabe (not to be confused with the more famous [[Ken Watanabe (actor)|Ken Watanabe]]) and former model [[Tetchie Agbayani]] (as Carol Roberts, also in ''Intrusion Cambodia''). Gale also directed [[Christopher Mitchum]] thrice, in ''Master Samurai'' (''1974''), ''Commander Firefox'' (1983) and ''SFX Retaliator'' (1987).

1227 [[Robert Patrick]], [[Harrison Ford]], [[Sylvester Stallone]], [[David Krumholtz]], [[Dennis Quaid]], and [[Todd Stashwick]] were considered for the role of Puss before [[Antonio Banderas]] was cast. 1228 ''Lionheart'' has its roots in two different projects. Van Damme had written an outline for an underground fighting film, called ''The Wrong Bet''. Meanwhile, his friend Sheldon Lettich was working on a script about the French Foreign Legion intended for [[Sylvester Stallone]], for whom he had already written ''[[Rambo III]]''. Van Damme occasionally helped Lettich with [[French language]] terms. When that film did not get made, it was decided to integrate the legionnaire backstory into ''The Wrong Bet'' to flesh out its central character.&lt;ref name=&quot;lettich-bio&quot;/&gt; A significant inspiration for the film was 1975's ''[[Hard Times (1975 film)|Hard Times]]'', a favorite of both Van Damme and Lettich. ''The Wrong Bet'' followed a similar template, pairing a somber hero with a shifty yet endearing manager (respectively played by [[Charles Bronson]] and [[James Coburn]] in the classic film).&lt;ref name=&quot;lettich-bio&quot;/&gt;
1229 Among the notable residents are hockey great [[Wayne Gretzky]], who lived in a Georgian-style estate designed by fellow Canadian, Richard Landry. Gretzky sold the estate in 2007 for 18.5 million to another sports-star, baseball's [[Lenny Dykstra]] and moved to a slightly less extravagant mansion in the community. Since then, Dykstra's financial and legal problems forced him to sell the estate to a private individual and move away from the community. Dykstra declared bankruptcy, causing him to lose the property to foreclosure and in 2018 Gretzky repurchased the same property that he previously sold to Dykstra.&lt;ref&gt;{{cite web|url=http://www.latimes.com/business/realestate/hot-property/la-fi-hp-hotprop-20180505-story.html|title=Wayne Gretzky shells out $13.5 million for a familiar place in Thousand Oaks|first=Neal J. [[Tom Petty]] lived in a lakefront retreat that was originally built in 1931. Producer/Author/Journalist Larry Garrison resides with his wife. The tennis legend [[Pete Sampras]] and his wife, actress [[Bridgette Wilson]], built a very large, modern, hilltop estate they have since moved from the house. [[Britney Spears]] moved to the community in 2011 but recently moved into nearby Hidden Valley. Many other famous inhabitants own property in the community, however, they are only part-time residents and use their estates as a second home or as a retreat. [[Sylvester Stallone]] owned a lakefront hideaway that was featured in the film [[American Pie (film)|American Pie]]. Also, [[William Randolph Hearst]], who was one of the first famous residents in the area and owned property around the lake, used his estate as a vacation getaway during the 1920s and 1930s.

1236 * '''Assy McGee''' ([[Larry Murphy (actor)|Larry Murphy]]) - a walking, talking lower torso with exposed [[buttocks]]. Horribly violent, an alcoholic and clinically depressed, Assy is a parody of the 1970s/1980s movie cops as seen in such films as ''[[Dirty Harry]]'', ''[[Lethal Weapon]]'' and ''[[Cobra (1986 film)|Cobra]]'': trigger-happy, tough, at times hopelessly depressed, and in conflict with his fellow officers as often as he is in conflict with crime.  Assy has a slurred style of speech similar to [[Sylvester Stallone]], though it is &quot;gassy&quot; sounding and muffled, possibly due to his anatomy or inebriation (or both), however has been shown to have an excellent ability to sing classical music.  He also quotes and mimics some of Stallone's most memorable characters, shouting Judge Dredd's catch phrase &quot;I am the law!&quot; in episode five &quot;Mexican Rain&quot; and reenacts the Rocky training scene in episode seven &quot;Ring of Fire&quot;.  Sometimes, when out of breath, or even just peeved, Assy will [[flatulate]]. Assy walks backwards and even jumps backwards. Assy has stated that he is of [[Cuba]]n descent. His Cuban heritage is backed up in the episode, &quot;Conviction&quot; when a childhood picture of Assy with a Cuban hat is shown in the background. We learn in the episode &quot;Hands Up&quot; (from season two) that Assy served in Vietnam, when a war flashback causes him to accidentally fire a bullet from an AK-47 into the abdomen of a World War II veteran. It is unclear whether Assy possesses [[genitalia]], though it is strongly implied on a few occasions. He has been shown walking in profile with no visible genital protrusion or covering, but he requested a &quot;happy ending&quot; from a [[masseuse]] in the episodes &quot;The Flirty Black Man&quot;, and &quot;Murder By The Docks&quot;. He is also perfectly capable of urinating in the [[Western canon|canon]]ical fashion. Licensed [[action figure]]s and other merchandise of the character cover his genital area with part of his [[handgun holster]]. In the episode Vowel Play, it is implied that Assy has undersized genitals when he indicates that he can only give a school sex education teacher &quot;four and half inches&quot;. It is also unclear how he can pick up or handle anything as he has no hands. Items he is 'holding' simply float in front of him.  One commonly &quot;floating&quot; item seen around Assy is his revolver, which appears to mimic a Colt Python or Colt King Cobra. In addition to his police duties, Assy owns a used car, hot tub, and driveway repair dealership off &quot;Exit 19&quot; in Exeter which he does a commercial for wearing a cowboy hat and boots. He claims to have all the new {{not a typo|[[Scion xB]]s}} in stock, as well as having a true price guarantee and an unwillingness to give cars to people without credit (&quot;Bad credit? No credit? Sorry, that's your problem, asshole!&quot;) His slogan for the business is &quot;Don't make me run your ass over!&quot; Appearing only in season two, the &quot;commercial&quot; aired midway through each episode during the season and was part of a promotional arrangement between Adult Swim and Toyota, the parent company of Scion.&lt;ref&gt;{{Cite web |last=Lafayette |first=Jon |date=2008-04-03 |title=Scion Takes a Spin with 'Assy' |url=http://www.tvweek.com/news/2008/04/scion_takes_a_spin_with_assy.php |url-status=dead |archive-url=https://web.archive.org/web/20080407062026/http://www.tvweek.com/news/2008/04/scion_takes_a_spin_with_assy.php |archive-date=2008-04-07 |access-date=2012-02-22 |publisher=TVWeek}}&lt;/ref&gt;

1240 '''Robert''' &quot;'''Rocky'''&quot; '''Balboa''' (born July 6, 1945{{citation needed|date=September 2024}}) (also known by his [[ring name]] the '''Italian Stallion''') is a fictional character and the titular [[protagonist]] of the [[Rocky (franchise)|''Rocky'' film series]]. The character was created by [[Sylvester Stallone]], who has also portrayed him in eight of the nine films in the franchise. He is depicted as a [[working class]] or poor [[Italian Americans|Italian-American]] from the slums of [[Philadelphia]] who started out as a [[club fighter]] and &quot;enforcer&quot; for a local [[Philadelphia Mafia|Philly Mafia]] [[loan shark]]. He is portrayed as overcoming the obstacles that had occurred in his life and in his career as a professional [[Boxer (boxing)|boxer]].
1241 The character is widely considered to be Stallone's most iconic role and is often considered the role that started his film career. He received critical acclaim for his performance in the first movie, earning [[Academy Award]] and [[Golden Globe Award]] nominations. When Stallone reprised his role once again in 2015 for ''[[Creed (film)|Creed]]'', his performance received universal acclaim and he received his first [[Golden Globe Award]] for [[Golden Globe Award for Best Supporting Actor - Motion Picture|Best Supporting Actor]], along with his third&lt;ref&gt;{{cite web |last1=King |first1=Susan |title=Golden Globes: Sylvester Stallone wins by a knockout |url=https://www.latimes.com/entertainment/movies/moviesnow/la-et-mn-golden-globes-stallone-20160110-story.html#:~:text=Sylvester%20Stallone%E2%80%99s%20Rocky%20Balboa%20made%20the%20comeback%20of,outing%20as%20the%20beloved%20Philadelphia%20pugilist%20in%20%E2%80%9CCreed.%E2%80%9D?adlt=strict&amp;toWww=1&amp;redig=9A4E443E50974C79AD1D7212FEBE2081 |website=[[Los Angeles Times]] |date=January 11, 2016 |access-date=1 August 2022}}&lt;/ref&gt; Oscar nomination for [[Academy Award for Best Supporting Actor|Best Supporting Actor]], the [[National Board of Review Award for Best Supporting Actor]] and several other accolades.
1242 The brain damage Rocky is diagnosed within ''Rocky V'' is not addressed in this film, but in interviews, Stallone has said that the storyline explanation would have been that Rocky's brain damage was within the normal range for boxers. When tested for [[brain damage]] in ''Rocky V'', Rocky was suffering the effects of a severe [[concussion]] as a result of the Drago fight, but he never sought a second or more informed opinion because he intended to retire anyway.&lt;ref&gt;{{cite web|url=http://www.aintitcool.com/node/30861 |title=Round One With Sylvester Stallone Q&amp;A!! |website=Aintitcool.com |access-date=December 1, 2015}}&lt;/ref&gt;
1243 Wanting to train in the old-school style, Donnie moves in with Rocky, staying in Paulie's former room. Donnie notices an old picture of Rocky and his son, Robert (an actual picture of [[Sylvester Stallone]] and a young [[Sage Stallone]]), Rocky reveals that Robert had moved to [[Vancouver]] with his girlfriend, because of the difficulties he faced trying to be independent in Philadelphia, but does check on his father every now and then. Pete, who initially wanted Rocky to be a part of his son, Leo's ([[Gabriel Rosado]]) team, challenges Donnie to fight his son, in which Rocky shows reluctance again, but then both agree.

1244 Stallone also said there are &quot;ongoing discussions&quot; about a Rocky prequel television series, which he hopes will land on a streaming service and the series will likely follow a young Rocky Balboa as professional boxing hopeful. Stallone said Winkler is hesitant on making the series saying that &quot;There was some conflict there, yes. He felt in his mind that ''Rocky'' was primarily a feature film, and he did not see it as being translated for cable, so there was a big bone of contention.&quot;&lt;ref&gt;{{cite web|url=https://variety.com/2019/film/features/sylvester-stallone-rocky-ownership-stake-1203275639/ |title=Sylvester Stallone Feels Robbed of an Ownership Stake in 'Rocky': 'I Was Furious' |work= [[Variety (magazine)|Variety]] |date=July 23, 2019 |access-date=July 23, 2019}}&lt;/ref&gt;&lt;ref&gt;{{cite web|url=https://popculture.com/movies/2019/07/23/sylvester-stallone-reveals-rocky-sequel-prequel-in-development/ |title=Sylvester Stallone Reveals 'Rocky' Sequel and Prequel Are in Development |work= popculture.com |access-date=July 23, 2019}}&lt;/ref&gt;
1245 That night, Rocky Balboa was born. People looked on him as the all-American tragedy, a man without much mentality and few social graces. But he has deep emotion and spirituality and good patriotism. And he has a good nature, although nature has not been particularly good to him. I have always seen him as a 20th Century gladiator in a pair of sneakers. Like so many of us, he is out of sync with the times. To all this, I injected doses of my own personal life, of my frustration at not getting anywhere.|30px|30px|Sylvester Stallone&lt;ref&gt;{{cite web|url=http://www.totalrocky.com/films/rocky/production.shtml |title=Rocky: Behind the Scenes Rocky (1976) &amp;#124; Making Of Rocky |website=Totalrocky.com |date=2014-06-20 |access-date=2015-12-01}}&lt;/ref&gt;}}
1246 Rocky Balboa fights as a [[Southpaw (boxing)|southpaw]] (left-handed). In the second film, against Apollo Creed, he comes out [[Orthodox (boxing)|orthodox]] and Mickey intends for him to switch back to southpaw late in the last round, but Balboa refuses saying &quot;no tricks, I ain't switching&quot;.  Mickey tells him that Apollo is ready for him (if he continues using his right) and so towards the end of the round, he does indeed lead with his left. The real reason for this is Sylvester Stallone tore his pectoral muscles in training,{{citation needed|date=December 2014}} but the idea was probably taken from the great southpaw boxer [[&quot;Marvelous&quot; Marvin Hagler]] who would sometimes come out orthodox to confuse opponents.{{citation needed|date=January 2021}}

1282 All of Vinny's training has been for an upcoming fight. At one point during his training he runs up the [[Rocky Steps]], imitating [[Sylvester Stallone]]'s famous climb. The music video culminates with a fight between Vinny and another boy in front of a packed crowd. Some of the footage seen is of an actual fight that Vinny fought in at [[The Blue Horizon]]. When the &quot;junior match&quot; gets underway, Vinny comes out punching.  Between each of the punches, the video flashes back to images from Vinny's father's death. These images include: his father's fighter plane getting shot down over Iraq, his mother picking up the heart-breaking phone call, and the military funeral ceremony. The entire segment ends with Vinny winning the fight and celebrating with the crowd. The video parallels the song by showing the ways in which people find ways to forget about and move on from bad things.  In this case Vinny leaves behind his toy planes which remind him of his father and boxes to forget about the painful event of his death.

1285 The 1980s saw the theme reworked in movies such as Missing in Action (1984) and especially in the three Rambo films that starred Sylvester Stallone. The second in the latter series, Rambo: First Blood, Part II (1985), showed the hero returned to Vietnam after the conflict to free American soldiers still held as prisoners of war. It was an audience favorite despite a generally acknowledged a lack of realism. Later in the 1980s, movies such as director Oliver Stone's Platoon (1986) brought a more realistic portrayal of the experience of American soldiers in Vietnam.

The '''Rocky Steps''' are 72 stone steps leading up to the East entrance of the [[Philadelphia Museum of Art]] in [[Philadelphia]] that gained global fame after being featured in a notable scene from the 1976 film ''[[Rocky (film)|Rocky]]''. In the scene, [[Rocky Balboa]], an unpolished but ambitious boxer from [[South Philadelphia]] played by [[Sylvester Stallone]], begins intense physical training after deciding to fight [[Apollo Creed]], the [[World Heavyweight Champion]]. The scene is widely considered one of the most iconic in the history of modern films.&lt;ref&gt;[https://the-rearview-mirror.com/2022/09/14/cinemas-greatest-scenes-when-rocky-runs-up-the-steps-of-philadelphia-museum-of-art/ &quot;Cinemas Greatest Scenes: When Rocky runs up the steps of the Philadelphia Museum of Art&quot;], Rearview Mirror&lt;/ref&gt;&lt;ref&gt;[https://entertainment.ie/movies/movie-news/heres-the-story-behind-the-iconic-steps-steadicam-scene-from-rocky-234554/ &quot;Here's the story behind the iconic 'Steps' Steadicam scene from Rocky&quot;], Entertainment.ie]&lt;/ref&gt;
''Rocky'' creator [[Sylvester Stallone]] has recounted that the genesis of the iconic scene occurred when the 1976 film crew for the movie, constrained by a tight budget, identified the steps one night while searching for filming locations around the city. Stallone first thought Rocky should carry his dog Butkus up the steps, but the big [[bull mastiff]] proved too heavy for the scene to work. Still, the view from the top of the stairs inspired him to reshoot the scene without the dog. In the 2006 film ''[[Rocky Balboa (film)|Rocky Balboa]]'', Rocky lifts his dog Punchy when he reaches the top of the steps. The [[closing credits]] of ''Rocky Balboa'' show a montage of dozens of people running up the steps.
Prior to the 1982 release of ''[[Rocky III]]'', [[Sylvester Stallone]] commissioned [[A. Thomas Schomberg]] to create a bronze statue of Rocky.&lt;ref name=&quot;pophistorydig&quot;&gt;{{cite web | url=http://www.pophistorydig.com/?tag=rocky-statue-philadelphia-art-museum | title=The Rocky Statue | work=The Pop History Dig | date=2009-07-20 | author=Doyle, Jack}}&lt;/ref&gt; Three 2-ton, {{convert|10|foot|adj=on}}-tall copies were to be cast. One was installed atop the steps for the filming of ''Rocky III'', and was ultimately relocated to the bottom of the steps. The second ''Rocky'' was in the [[San Diego Hall of Champions|San Diego Hall of Champions Sports Museum]] in [[San Diego, California]], until it closed in 2017. The statue was then put up for auction, and purchased by an anonymous buyer who was later revealed to be Sylvester Stallone himself.

In 2006, professional boxer Cornelius 'K9' Bundrage was a participant on ESPN's &quot;The Contender&quot; Season 2 boxing reality television show, with Hall of fame host [[Sugar Ray Leonard]] and [[Sylvester Stallone]] in Hollywood, California. During the show, Bundrage was viewed by millions of fans each week for fourteen weeks straight. He also was named &quot;fan favorite&quot; out of sixteen boxers from all over the United States. Bundrage was the last picked, winding up on the '''Blue Team'''. Wanting to avenge the slight, he volunteered to be the first member of his team to box in the tournament (quoting Matthew 20:16, &quot;And the last shall be first&quot;) and found himself in a match against [[Michael Clark (boxer)|Michael Clark]]. In a tightly fought battle for five rounds, the two found themselves practically tied on points, Bundrage knocked Clark down with a massive right hand to the temple, which won him the fifth round on 2 of the 3 judge's scorecards and won a majority decision (2 judges said Bundrage won, 1 said it was a draw). Bundrage moved along in the tournament, while Clark was forced to hang up his gloves and go home.

1388 Jonathan and Dio, the protagonist and antagonist, were created with the duality of light and shadow in mind, with the intention to have them contrast against each other: Dio was depicted as the embodiment of evil, and Jonathan as &quot;fundamentally virtuous&quot; and just. Araki also made use of black and white in his art to further contrast the two.&lt;ref&gt;{{cite book |last=Araki |first=Hirohiko |author-link=Hirohiko Araki |translator-last=Collins |translator-first=Nathan A. |date=2017 |title=Manga in Theory and Practice: The Craft of Creating Manga |publisher=[[Viz Media]] |page=56 |isbn=978-1-4215-9407-1}}&lt;/ref&gt; Jonathan was designed to be a symbol for the story and setting, something Araki would continue doing with later protagonists in the series.&lt;ref name=&quot;ann interview 2017-06&quot;&gt;{{cite web |url=http://www.animenewsnetwork.com/feature/2017-06-29/interview-jojo-bizarre-adventure-creator-hirohiko-araki/.118032 |title=Interview: Jojo's Bizarre Adventure Creator Hirohiko Araki |last1=Mitchem |first1=Casey Lee |last2=Silverman |first2=Rebecca |date=2017-06-29 |website=[[Anime News Network]] |access-date=2017-09-30 |archive-url=https://web.archive.org/web/20170708115039/http://www.animenewsnetwork.com/feature/2017-06-29/interview-jojo-bizarre-adventure-creator-hirohiko-araki/.118032 |archive-date=2017-07-08 |url-status=live}}&lt;/ref&gt; Because Araki wanted the series to move on with new characters in the Joestar family, Jonathan was specifically written as &quot;the first Joestar&quot; that would function as a symbol of purity and dignity, and not as a unique character. [[Sylvester Stallone]], who famously portrayed the boxer ''Rocky Balboa'' in the [[Rocky]] series of films, is the show's executive producer. It was also produced by [[Mark Burnett]]. Unlike in season 1, Stallone does not appear on camera; at the time the series was taped, he was making ''[[Rocky Balboa (film)|Rocky Balboa]]'', the sixth installment in the ''[[Rocky]]'' movie series. 1394 Araki called Joseph a swindler in comparison to the gentlemanly Jonathan, because he is constantly looking to win and will engage in reckless behavior without hesitation. This was not only to create contrast between the two, but also because the author wanted to shift from the physical battles in Part 1 to more &quot;cerebral&quot; fights. He wanted Joseph to be a ''[[shōnen manga]]'' hero who bends the rules as he fights, like the protagonist of his earlier series ''Cool Shock B.T.'', winning by cunning and logic, instead of bravery and perseverance. Araki fleshed the character's personality out by having him predict the actions of his opponents ahead of time. He referred to Joseph as &quot;a muscle-bound B.T.&quot;, achieved by adding some [[Sylvester Stallone]] to B.T., plus some added cheerfulness to make him &quot;jolly.&quot; Araki stated that Joseph is the character that connects the Joestar bloodline to Parts 3 and 4, and although he had Jonathan die in Part 1, he never even considered killing off Joseph.&lt;ref name=&quot;joseph&quot;/&gt;

1398 | Mother of [[Sylvester Stallone]]

1399 '''Brigitte Nielsen''' (born 15 July 1963) is a Danish actress, who entered the house last on Day 1. She was once married to [[Sylvester Stallone]]. During her time in the house she became close to Lisa and Caprice. She was known for her use of her catchphrase &quot;diggity&quot;.

1400 '''Jackie Stallone''' (29 November 1921 – 21 September 2020) was an American astrologer and mother to film actor [[Sylvester Stallone]]. She entered the house on Day 5, as part of the Mediaeval Task, in which she was referred to as &quot;the Queen mother&quot;. She is remembered for her first words to Brigitte upon entering the house, &quot;Yeah, Brackie&quot;. She is also former mother-in-law to fellow housemate Brigitte. Her entering upset Brigitte greatly and resulted in Brigitte requesting to leave. However, in the house, they resolved their issues with each other. She was the cause of much conflict between her fellow housemates particularly with Lisa who likened her to the [[Bride of Frankenstein]] and told her she hoped that she choked on her eggs. She also had many confrontations with John who branded her &quot;lazy&quot;. Her lack of day-to-day knowledge was much to the entertainment of her fellow housemates such as her not being able to open a bottle of wine or make tea. Jackie said that this was down to the fact that she had employees to do these things for her in the outside. After only just four days in the house, she was first to be evicted on Day 9, losing out to John, with 33% of the vote to save. She is the oldest housemate to ever enter the house in the UK, until 10 series later, when [[Lionel Blair]] entered the house at age 85.

1401 The cartoon generated a mild controversy at the production studio, with writers wondering how they could present a child-friendly main character who was created as a troubled [[Vietnam War]] veteran suffering from [[posttraumatic stress disorder]] (PTSD). While some have alleged that the show used child psychologists who recommended that the cartoon not make any references to Vietnam, POWs, or Rambo's experiences in 1982's ''First Blood'' and 1985's ''Rambo: First Blood Part II'', the show's head writer, Michael Chain, denies this and instead states that his previous experience in producing children's programming led him to make sure that Rambo would not &quot;have an adverse effect on the psyche of children&quot;.&lt;ref&gt;{{cite web |last1=Chernov |first1=Matthew |title=10 Secrets From the Cast &amp; Crew of the '80s Rambo Cartoon |url=https://www.toplessrobot.com/2015/05/rambo_force_of_freedom_stallone_first_blood_morrel.php |website=Topless Robot |date=4 May 2015 |access-date=31 August 2019}}&lt;/ref&gt; Sylvester Stallone was annoyed and embarrassed that the Rambo character was used as a cartoon character.&lt;ref&gt;{{Cite web|url=https://www.chicagotribune.com/news/ct-xpm-1986-05-18-8602040747-story.html|title=Stallon wields a pen with Ramboian Power|website=Chicago Tribune|date=18 May 1986}}&lt;/ref&gt;

1420 [[Category:Cultural depictions of Sylvester Stallone]]</text>

1421 '''''First Blood''''' is a 1972 American [[Action fiction|action]]-[[Thriller (genre)|thriller]] novel by [[David Morrell]] about a troubled [[Homelessness in the United States|homeless]] [[Vietnam War]] veteran, known only by his last name of [[John Rambo|Rambo]], who wages a brutal one-man war against local and state police in [[Kentucky]]. It was adapted into the 1982 film ''[[First Blood]]'' starring [[Sylvester Stallone]],&lt;ref&gt;{{cite web |url=http://davidmorrell.net/books/first-blood/ |title=Rambo |access-date=July 21, 2012 |author=David Morrell|author-link=David Morrell }}&lt;/ref&gt; which ended up spawning an entire [[Rambo (franchise)|media franchise]] around Rambo.

1422 In 1972, Morrell sold the film rights to ''First Blood'' to [[Columbia Pictures]], who in turn sold them to [[Warner Bros.]] The film languished in [[development hell]] for ten years, with the story passing through three companies and eighteen screenplays. Finally, [[Andrew G. Vajna]] and [[Mario Kassar]], two film distributors looking to become producers, obtained the film rights. [[Sylvester Stallone]] was cast in the lead role, due to the star power he had from the films ''[[Rocky (film)|Rocky]]'' and ''[[Rocky II]]''. Stallone used his clout to force changes to the script to make Rambo a more sympathetic character, including having Rambo not directly kill any police or national guardsmen (in the novel, he kills many), and having him survive at the end instead of dying as he does in the book. The novel also differs from the film in that, instead of Trautman personally training and leading Rambo in Vietnam, Trautman is mentioned as the commander of the school where he trained and Rambo barely remembers him. Also in the book, Rambo expresses anger that Trautman would turn on one of his own after hearing that Trautman is working with the police to capture him.

1423 In 1991, he travelled to Los Angeles and secured his first Hollywood acting role in the 1993 action blockbuster ''[[Cliffhanger (film)|Cliffhanger]]'' with [[Sylvester Stallone]].&lt;ref name=&quot;tv&quot;&gt;{{Cite web |title= Craig Fairbrass credits |url= https://www.tvguide.com/celebrities/craig-fairbrass/credits/3030064420/ |work= tvguide.com |access-date=31 May 2023}}&lt;/ref&gt; This led to roles in independent films with lead roles in ''[[Beyond Bedlam]]'' (1994),&lt;ref name=&quot;tv&quot;/&gt; with [[Elizabeth Hurley]], ''[[Galaxis]]'' (1995),&lt;ref name=&quot;tv&quot;/&gt; with [[Brigitte Nielsen]], ''Proteus'', ''Killing Time'', and ''Darklands''.&lt;ref name=&quot;tv&quot;/&gt;

1435 |Aux3 = [[Arnold Schwarzenegger]] vs. '''[[Sylvester Stallone]]'''

1436 ''Fight 3'': In a bizarre twist, both fighters punch and knock each other out, prompting referee Mills Lane to count them out. Arnold Schwarzenegger manages to stand up, but Sylvester Stallone sweep-kicks him to the floor and then stands up himself. Mills then declares Sylvester the winner. Arnold Schwarzenegger flicks a cigar into the audience that lands in Don King's hair, which sets him on fire and eventually burns him alive. Also featuring [[Adrian Zmed]].

1437 ''Fight 2'': Both fighters are given the chance to choose a setting of how the ring would look for the fight by a coin toss. John wants the set of ''[[Entertainment Tonight]]'', while David wants a ''[[Baywatch]]''-like setting. In the end, Hasselhoff wins and gets a ring set up to look like a beach. John Tesh is crushed by [[KITT]] when David Hasselhoff asks him for help after his face gets torn off. David Hasselhoff's face and skull are ripped off when John Tesh unfolds an umbrella in his head. He collapses on top of KITT after the fight. Also featuring [[Sylvester Stallone]], [[Arnold Schwarzenegger]], [[David Spade]] and [[Steven Seagal]].

1438 La Botz began his acting career after catching the attention of actor, director, and [[independent film]]maker [[Steve Buscemi]], who cast La Botz as a blues-singing convict in his 2000 film [[Animal Factory]]. La Botz performed two original songs in the film, &quot;This Ain't the Way I Came Up&quot; and &quot;Lay Down the Bottle.&quot;&lt;ref name=animal-factory/&gt; In the next few years, La Botz appeared in [[Terry Zwigoff]]'s arthouse film ''[[Ghost World (film)|Ghost World]]''&lt;ref name=ghost-world/&gt; as well as in Buscemi's [[Lonesome Jim]].&lt;ref name=lonesome-jim/&gt; In 2008, La Botz starred in [[Sylvester Stallone]]'s [[Rambo (2008 film)|Rambo]], in which he performed two songs from his album ''Graveyard Jones'', &quot;The Wishing Well&quot; and &quot;Tiny.&quot;&lt;ref name=&quot;films&quot;/&gt; Other notable film appearances include [[Timur Bekmambetov]]'s ''[[Abraham Lincoln: Vampire Hunter (film)|Abraham Lincoln: Vampire Hunter]]'' and [[Walter Salles]]'s film adaptation of [[Jack Kerouac]]'s ''[[On the Road]],'' in which he performs his song &quot;Hard to Love What You Kill.&quot;&lt;ref name=&quot;ontheroad&quot;/&gt;&lt;ref name=&quot;abelincoln&quot;/&gt; La Botz's 2015 film credits include the lead role in The Grace of Jake, an independent film directed by [[Chris Hicky]], and a starring role in [[Isaac Florentine]]'s action movie Close Range.&lt;ref name=&quot;graceofjake&quot;/&gt;&lt;ref name=&quot;closerange&quot;/&gt;

In [[popular culture]], [[pornography]] (if seen in aesthetic terms) is used as an example of the [[objectification]] of women, and violent films have been cited as the influence for so-called ''[[Copycat crimes|copycat]]'' acts in reality. An example of this was the [[Hungerford Massacre]], where a gunman was alleged by the [[tabloid press]] to have been influenced by the ''[[Rambo (film series)|Rambo]]'' series of films starring [[Sylvester Stallone]].

In 1995, born out of a mutual love for rare and unseen cult films, Bob Murawski and actor/director and son of [[Sylvester Stallone]], [[Sage Stallone]] formed Grindhouse Releasing.&lt;ref name=&quot;SexGore&quot;&gt;[http://www.sexgoremutants.co.uk/spot10.html] Interview with exploitation film distributor Bob Murawski of Grindhouse Releasing&lt;/ref&gt; Murawski continues to run Grindhouse and partner Box Office Spectaculars, both companies that restore, preserve, and distribute classic cult and Euro-horror films. The two labels have digitally remastered classic cult films such as ''[[The Swimmer (1968 film)|The Swimmer]]'' starring [[Burt Lancaster]], ''[[The Big Gundown]]'' starring [[Lee Van Cleef]] and [[Tomas Milian]], Lucio Fulci's spaghetti-horror masterpiece, ''E tu vivrai nel terrore'' (a.k.a. 1484 :::::For [[User:Caglarkoca|Caglarkoca]], the links I gave were to show how much of an impact the Armenian Genocide has on Turkish foreign relations. It affected French relations, it has affected relations with every country that has accepted the events of 1915 as genocide. I am not asking for an article on US, France etc. I am asking something simple that is very clear. The impact of the Armenian Genocide on Turkey is big. There are demonstrations by nationalists in Turkey against it, the film Ararat was banned in Turkey, the upcoming ban on Sylvester Stallone's 40 days of Musa Dagh film, Orhan Pamuk's arrest, the cancelled military contracts w/ France, the closed border w/ Armenia, some EU countries questioning of Turkey's place in the EU because of the Armenian Genocide...these are all the because of the Armenian Genocide issue. I think it deserves a simple mention. I am confused on why this is not encyclopedic. Besides on a side note, do you think Turkey would be pleased if the Democrats pass a bill recognizing the genocide? Anyway this is off topic, I have said my points. Gombo, a Mongolian shepherd, lives in a [[yurt]] in Inner Mongolia with his wife, three children, and mother. Gombo desires sexual intercourse with his wife, which puts his wife ill at ease: having a fourth child would break Chinese law. Meanwhile, Sergei, a buffoonish Russian truck driver falling asleep at the wheel, stops after a close call and attempts to awaken himself. His stretching turns to frolicking, and he wanders off. He discovers a corpse and quickly returns to his truck, accidentally driving into the river in his haste. Back at the yurt, the family is portrayed as unsophisticated and traditional people. They work together performing simple tasks like weaving by hand and using a horse cart to work leather. Gombo's drunk, horse-riding relative rides through the scene, stopping along the way to give them a movie poster for Cobra, which displays a muscular, gun-toting Sylvester Stallone.

:::I must have missed that. Still, it is in general very hard to catch the tracks from a camera dolley (or a camera itself for that matter) in a movie scene that has been edited and professionally produced. 1516 : I don't think Sylvester Stalone had the money to do bluescreen photography at that time. He was a poor young man. Moreover, Rocky played catch on the street with a local guy in that scene (Rocky was jogging, a guy threw an apple to Rocky, Rocky got the apple ...). It was unneeded and next to impossible for Sylvester Stalone to film that part with bluescreen.

1518 Dennis was actually a fairly notable wrestler in Texas and Florida in the 70's. He held numerous (10) N.W.A. championships and was even featured in Sylvester Stallone's movie Paradise Alley in 1978. Because of his somewhat dubious appearance in Beyond the Mat in the late 90's he has gained a bad rap as fancruft, but I think he is really a valid notable part of wrestling history from the 70's in the South. 1524 A theatrical ''Ratchet &amp; Clank'' animated feature film adaptation was announced in April 2013, with a planned release in 2015 but was delayed to 2016. It eventually released on April 29, 2016. The film was developed by the Blockade Entertainment Studios and [[Rainmaker Entertainment]], the same production company that produced the world's [[History of computer animation¦first half-hour, entirely computer animated television series]] ''[[ReBoot]]'', and is distributed by [[Focus Features]] and [[Gramercy Pictures]], along with partnerships from Sony Interactive Entertainment (formerly Sony Computer Entertainment) and [[Insomniac Games]]. 1536 Rocky Balboa (Sylvester Stallone) is a small-time boxer who works as a collector for a loan shark and fights in sleazy clubs for low pay. His gym trainer, [[Mickey Goldmill]] ([[Burgess Meredith]]), thinks little of Balboa's potential. At the same time, Rocky successfully courts Adrian Pennino ([[Talia Shire]]), a painfully shy woman with an alcoholic brother, Paulie ([[Burt Young]]). But when the world [[heavyweight]] champion boxer [[Apollo Creed]] ([[Carl Weathers]]) chooses Rocky at random as his opponent in a title fight, Rocky realizes he has the chance to prove his worth. With Adrian's support, sponsorship offers with the help from Paulie, and Mickey becoming his trainer and manager, Rocky is determined to go the distance with Creed and fights for his self-respect.

1537 In the aftermath of his fight with Ivan Drago, Rocky Balboa is diagnosed with brain damage and is forced to retire from the ring. Additionally, the Balboa fortune is all gone due to an unscrupulous accountant. Rocky's family returns to their old neighborhood and Adrian returns to the pet store she used to work at, while Rocky (Robert) Jr. (Sylvester Stallone's [[Sage Stallone¦real son Sage]]) deals with bullying at his school and Rocky re-opens Mickey's old gym. While training other boxers, Rocky meets a young, hungry boxer named [[Tommy Gunn (character)¦Tommy Gunn]] (real-life fighter [[Tommy Morrison]]) and begins training him which results in a strained relationship with Robert. As Tommy begins his rise to fame under Rocky's wing, fight promoter George Washington Duke convinces Tommy to leave Rocky for Duke. After Tommy wins the heavyweight title, he makes a short speech thanking Duke, and is met with jeers from the crowd. Tommy seeks out his former mentor for a final showdown. Rocky starts to walk away from the public challenge, but Paulie scolds Tommy for how he has treated Rocky, and Tommy punches Paulie. Rocky then challenges Tommy outside and the two proceed in a violent bare-knuckle street brawl, which Rocky wins. Rocky then punches Duke for harassing him. Rocky and Robert reconcile.

1538 In December 2018, Sylvester Stallone confirmed that there were ongoing discussions regarding a third ''Creed'' film. 1544 In February 2023, Stallone posted the first page of the script on a since deleted [[Instagram]] post, showing his fans a glimpse at the work he had put into the project. The filmmaker once again expressed doubt that the film will be produced, owing to his feud with Winkler over rights to the franchise.&lt;ref name=&quot;Rocky7_Collider&quot;&gt;{{Cite web |last=Kazi |first=Safeeyah |date=2023-02-20 |title='Rocky 7': Sylvester Stallone Shares Excerpts and Ideas for Cancelled Sequel |url=https://collider.com/rocky-7-sylvester-stallone-excerpts-images/ |access-date=2023-02-28 |website=Collider |language=en}}&lt;/ref&gt;
1545 In July 2019, Sylvester Stallone announced that there are &quot;ongoing discussions&quot; about a ''Rocky'' prequel television series, with the project intended to premiere on a streaming service platform. Film series producer, Irwin Winkler however, is said to be hesitant in making a television series with concerns regarding how the story would translate to television. As an official production start has not yet been announced, Stallone stated: &quot;There was some conflict there, yes. ...so there was a big bone of contention&quot;.&lt;ref name=&quot;Rocky.TV_PopCulture&quot;&gt;{{cite web|url=https://popculture.com/movies/2019/07/23/sylvester-stallone-reveals-rocky-sequel-prequel-in-development/ |title=Sylvester Stallone Reveals 'Rocky' Sequel and Prequel Are in Development |work=popculture.com |date=July 16, 2019 |access-date=July 23, 2019}}&lt;/ref&gt;
1546 In March 2021, Stallone revealed he had started working on the script for a prequel series that will take place during the [[1960s]], with intention for the show to be developed as a [[streaming media|streaming]] exclusive with multiple seasons, each consisting of ten episodes.&lt;ref name=&quot;TV treatment_Collider&quot;&gt;{{cite web|url=https://collider.com/sylvester-stallone-rocky-prequel-series-pitch/|work=Collider|title=Sylvester Stallone Reveals He's Working on a Pitch for 'Rocky' Prequel Series|author=Rapp, Doug|date=March 30, 2021|access-date=March 30, 2021}}&lt;/ref&gt; By May, Stallone said that though there are &quot;certain complications&quot; with developing the series, but that he would &quot;keep punching&quot;.&lt;ref name=&quot;Rocky.TV_complications&quot;&gt;{{Cite instagram|user=officialslystallone|postid=CPBIbEVp5B9|title=If the Rocky prequel ever happens, which I don't think it will because of certain complications, it would've looked something like this. 1568 Surrounded by screenwriters in [[Venice, California]], he wrote nearly twenty original screenplays and two novels. Prior to his screenwriting career David wrote for ''[[He-Man and the Masters of the Universe]]''. In just five years he read and wrote coverage on over 5,000 screenplays, becoming the Story Editor for White Eagle Enterprises, [[Sylvester Stallone]]'s company. In 1989 he finished ''Gale Force'' which was snapped up by [[Dan Melnick]] who partnered to produce it with [[Carolco]] and actively aided [[Carolco]] in the bidding. Stallone was to star. The script was repeatedly rewritten. Relative newcomer [[Renny Harlin]] was hired to direct and worked with seven rewriters. After years of rewrites the plug was pulled two weeks before production and the entire creative team moved to ''[[Cliffhanger (film)|Cliffhanger]]''.

1569 &quot;Grounds for Separation&quot;, according to [[Daryl Hall]], was going to be used in the [[Sylvester Stallone]] film ''[[Rocky]]''. [[Frank Stallone]], Sylvester's brother, had been in a band with [[John Oates]] called Valentine and this connection got them a shot at an appearance on the soundtrack. The film, however, was slow to get off the ground, and Hall and Oates withdrew the song. &quot;Gino (The Manager)&quot; is about [[Tommy Mottola]], who was the duo's manager at the time. The record jacket insert reads &quot;And introducing Tommy Mottola as 'Little Gino.' &quot;&lt;ref&gt;{{cite web|url=https://www.latimes.com/archives/la-xpm-1990-03-04-ca-2407-story.html |title=Mottola and Music |publisher=Articles.latimes.com |date=1990-03-04 |access-date=2018-09-02}}&lt;/ref&gt;

1570 Garlington also appeared in the sequels to [[Alfred Hitchcock]]'s ''[[Psycho (1960 film)|Psycho]]'', ''[[Psycho II (film)|Psycho II]]'' (1983) and ''[[Psycho III]]'' (1986). She starred alongside [[Sylvester Stallone]] and [[Brigitte Nielsen]] in the action/thriller ''[[Cobra (1986 film)|Cobra]]'' (1986), and played [[Demi Moore]]'s obstetrician in ''[[The Seventh Sign]]'' (1988). 1573 Lincoln's Marching Band was featured in '&quot;[[Rocky III]]&quot;' in a scene in which he was honored in front of the [[Philadelphia Museum of Art]]; this is the scene where the still-iconic [[Rocky Balboa]] statue was first unveiled. A scene for ''[[Rocky II]]'' was filmed in the Lincoln High School auditorium, but the scene was not used in the film. In the cut scene, Rocky Balboa was awarded an honorary high school diploma. Like his fictional character, [[Sylvester Stallone]] attended Lincoln but did not graduate, due to his boxing career, though his brother Frank did.

1590 &quot;The Woman in You&quot; was the last track recorded for ''Staying Alive'', and the lead single from the soundtrack.  Director [[Sylvester Stallone]] used the Bee Gees songs in the movie more as background music rather than the prominent way ''Saturday Night Fever'' had featured them. The single received more airplay than the Bee Gees previous two singles, though not enough to reach a top 10 position. In interviews following the release of the film, the brothers expressed their displeasure at the way their songs were edited and revealed that their hearts were not in the music. By 1983, the Bee Gees were focusing their talents on solo projects and production of other artists, so it is not surprising that they were not all enthusiastic about the ''Staying Alive'' movie.

1619 In 2001, Dubosarsky and Vinogradov made a transition from the socialist fantasy to the ideals of [[mass media]].  Total Painting (2001) created a large scale image of mass culture from around the world borrowing ideas from [[advertising]] and mainstream media.  Our Best World (2003) created a common ground for stars such as [[Sylvester Stallone]], [[Spider-Man]], [[Barbie]], [[Madonna (entertainer)|Madonna]], [[Arnold Schwarzenegger]], [[Marilyn Monroe]], and even [[Picasso]].  The Underwater World (2002) was made for the Russian pavilion for the 50th [[Venice Biennale]]. 1678 At age 15, Mendenhall portrayed [[Sylvester Stallone]]'s son in the 1987 sport drama ''[[Over the Top (1987 film)|Over the Top]]'', about a long haul truck driver who tries to win back his alienated son while becoming a champion arm wrestler. That same year, he appeared in the comedy ''[[Going Bananas (film)|Going Bananas]]'' with [[Dom DeLuise]] and [[Jimmie Walker]]. In 1989, Mendenhall worked on ''The Secret of the Ice Cave'' with [[Sally Kellerman]], which was shot in [[Chile]]. All three movies were produced by [[The Cannon Group, Inc.|Cannon Films]]. In 1989, Mendenhall starred opposite [[Christina Applegate]] in the drama ''[[Streets (film)|Streets]]'', once again working with Roger Corman, who produced. On television, Mendenhall had a recurring role for two seasons on the NBC drama ''[[Our House (1986 TV series)|Our House]]'', starring [[Wilford Brimley]].

1680 ''Blood Dragon'' is a stand-alone &quot;expansion pack&quot; based on the world of ''Far Cry 3''. Although ''Blood Dragon'' does not continue the story of ''Far Cry 3'', it shares the same game engine and gameplay mechanics. News of its development was leaked by the Brazilian ratings board, which awarded an 18+ certification based on the title's references to violence, sex, and drugs. The game's retrospective story, characters and visual style are inspired by 1980s action movies, especially those starring [[Arnold Schwarzenegger]], such as ''[[Commando (1985 film)|Commando]]'', ''[[The Terminator]]'', and ''[[Predator (film)|Predator]]'', and [[Sylvester Stallone]], like ''[[Cobra (1986 film)|Cobra]]'', ''[[First Blood]]'', and ''[[Rocky IV]]''. Other film/television references include ''[[RoboCop]]'', ''[[Escape from New York]]'', ''[[Scarface (1983 film)|Scarface]]'' and ''[[Teenage Mutant Ninja Turtles]]'', among others. Pre-orders of the PC version received a digital copy of the soundtrack, produced by Melbourne, Australia-based Power Glove. Due to the success of the title, Ubisoft CEO Yves Guillemot has stated that the game may also get a retail release.

1692 In 1972, author [[David Morrell]] published ''[[First Blood (novel)|First Blood]]'', a novel that features a former member of the Army Special Forces named [[John Rambo]]. The novel focuses on the struggle Rambo faces when he attempts to return to civilian life following the end of his tour of duty in Vietnam, and he eventually turns to violence. In 1982, a [[First Blood|film adaptation]] of the novel was released, starring [[Sylvester Stallone]]. The film altered many aspects of the novel, including excising the self-loathing characteristics the protagonist possesses in the novel.&lt;ref&gt;[http://www.davidmorrell.net/faq.cfm] {{webarchive|url=https://web.archive.org/web/20080509133752/http://www.davidmorrell.net/faq.cfm|date=May 9, 2008}}&lt;/ref&gt; The film was a box office success,&lt;ref&gt;{{cite web|url=https://boxofficemojo.com/movies/?id=firstblood.htm |title=First Blood (1982) |publisher=Boxofficemojo.com |access-date=2015-06-03}}&lt;/ref&gt; and spawned a media franchise.
1693 * In the film ''[[First Blood]]'' (1982), [[Sylvester Stallone]] portrays [[John Rambo]], a former Green Beret searching for his old friend from his time in the Special Forces. 1700 In January, Reading could not have got a better start. On New Year's Day, Reading put six past West Ham United. On 6 January, Reading were due to play Burnley in the FA Cup but it was postponed due to a waterlogged pitch, but Reading beat Burnley on the Tuesday night, a 3-2 win. Reading went to Everton unbeaten in the new year, and the game ended 1-1 in a match attended by [[Sylvester Stallone]] as an Everton supporter and guest of the chairman. Reading played Sheffield United at 2-0 Reading came a push-up in the dug out. Warnock and Downs sent off. Reading won 3-1. Reading Played Birmingham in the FA Cup (again). Birmingham had just enjoyed a 5-1 win at Newcastle United but they lost 3-2 to the Royals. Reading beat Wigan by the same score.

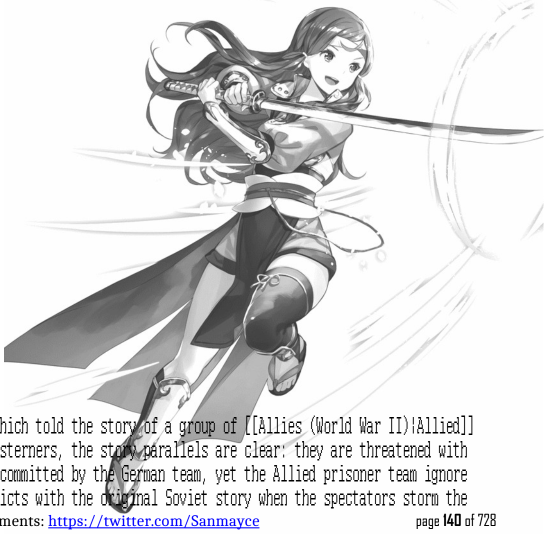
1743 In 1981, [[Michael Caine]] and [[Sylvester Stallone]] starred in the film ''[[Escape to Victory]]'', directed by [[John Huston]], which told the story of a group of [[Allies (World War II)|Allied]] POWs who are challenged to a match against the prison's guards. While the film's POWs are not Ukrainian but rather predominately Westerners, the story parallels are clear: they are threatened with death if they win, the playing ground is surrounded with Nazi guards and attack dogs, the referee ignores vicious and brutal fouls committed by the German team, yet the Allied prisoner team ignore the threat and draw the match, thus risking forfeiting their lives. (Huston's film has a ''[[deus ex machina]]'' ending which conflicts with the original Soviet story when the spectators storm the
```



field at the match's end and the POWs escape in the resultant confusion, but as no event similar to this actually occurred in the West during World War II, it is generally assumed that this film was inspired by the legendary/propaganda version of the Death Match.)

1761 In the 1980s, Eiferman had a TV show called ''Take 5 for Fitness'' on Fox 5 in Las Vegas. As a trainer, nutritionist, and fitness ambassador, he had working relationships with weightlifters [[Steve Reeves]], [[Lou Ferrigno]], and [[Arnold Schwarzenegger]] as well as entertainers [[Mae West]], [[Debbie Reynolds]], [[Liz Taylor]] and [[Marilyn Monroe]]. He also helped train celebrities like [[Rock Hudson]], [[Sylvester Stallone]], and even Elvis in the early 1970s when he was having weight/health issues.

1762 '''Steven C. Miller''' is an American [[screenwriter]], [[Film editing|editor]], and [[film director|director]]. His feature film debut, ''[[Automaton Transfusion]]'', became an instant cult classic and catapulted his career into Hollywood. He directed the remake of ''[[Silent Night, Deadly Night]]'' in 2012 and then shifted from horror to action. He has directed films starring notable actors such as [[Bruce Willis]], [[Sylvester Stallone]], [[Nicolas Cage]], [[John Cusack]], [[Aaron Eckhart]], [[Giancarlo Esposito]], and [[Dave Bautista]].&lt;ref&gt;{{cite web|title=Steven C. 1764 | [[Sylvester Stallone]], [[John Lithgow]], [[Michael Rooker]], [[Janine Turner]], [[Leon Robinson|Leon]], [[Paul Winfield]] and [[Ralph Waite]]

1765 Robson has helped produce films ranging from [[Nick Nolte]]'s ''[[Affliction (1997 film)|Affliction]]'' to [[Sylvester Stallone]]'s ''[[Cliffhanger (film)|Cliffhanger]]''. She has represented a significant portion of producers, lenders, equity investors and distributors in a wide range of financings, including senior and mezzanine debt and equity, international co-productions, U.S. and foreign tax incentivized financings and crowd funding, with an added focus on animation and TV joint ventures. She represents a variety of financiers, banks, equity investors, high-profile independent producers and production companies for which she structures film finance transactions, as well as provides production legal representation.&lt;ref name=&quot;:0&quot;&gt;{{Cite news|url=http://www.filmfinancesummit.com/film-experts/|title=Speakers - Film/TV Production &amp; Finance Summit|work=Film/TV Production &amp; Finance Summit|access-date=2017-07-05|language=en-US|archive-url=https://web.archive.org/web/20170822183012/http://www.filmfinancesummit.com/film-experts/|archive-date=22 August 2017|url-status=dead}}&lt;/ref&gt;

1768 Alfred J. DiMora purchased the assets of Clénet Coachworks, Inc., revived Clénet and moved the company to a new production factory in [[Carpinteria, California]]. He re-established the production of the automobile to the same standards of the original, employing many of the original craftsmen from the first Clénet company. Production resumed the two series of Clénets started at the Goleta facility. Later the Series IV and Series V Designed by Alfred J. DiMora were added to the line of Clénet automobiles. Clénet Coachworks automobiles offered such features as Italian walnut burl dashboards and etched glass accented by [[Waterford crystal]] ashtrays which brought many Clénet models in at over $100,000. His other memorable roles include the character Howard Landers in ''[[My Bloody Valentine (film)¦My Bloody Valentine]]'' (1981) and William Drake in the blockbuster film ''[[X2 (film)¦X2]]'' (2003). He also starred in two horror films directed by [[William Fruet]]: ''[[Cries in the Night¦Funeral Home]]'' (1980) and ''[[Bedroom Eyes (film)¦Bedroom Eyes]]'' (1984). He also played supporting parts in such films as ''[[Act of Vengeance (1986 film)¦Act of Vengeance]]'' (1986), ''[[Ernest Rides Again]]'' (1993), ''[[Luna (killer whale)¦Luna: Spirit of the Whale]]'' (2007) and ''[[Air Bud: Spikes Back]]'' (2003). 1778 Janet Maslin in her review for ''[[The New York Times]]'', noted that the comedy elements dominated. &quot;Mr. Hall, whose earlier performances (in films like &quot;National Lampoon's Vacation&quot; and &quot;Sixteen Candles&quot;) have been much goofier, remains coolly funny and graduates to subtler forms of comedy with this role. ... Mr. Pare, who looks like a model and sounds like a wrier version of Sylvester Stallone, makes an appropriately staunch straight man. He and [[Deborah Moore¦Deborah Maria Moore]], as the pert major who attracts both Tom and Shotgun, give the film a decorative luster it might otherwise lack. [[Terry Kiser]] has some amusing moments as the loudmouth talent manager who, asked if the &quot;star&quot; and &quot;sensation&quot; who is his client can be described as &quot;Tom Slade, the actor,&quot; pauses nervously. He thinks that may be going too far.&quot;&lt;ref name=NYT&gt;Maslin, Janet. 1782 A '''[[Rocky Steps#Bronze statue¦bronze statue of Rocky]]''' was commissioned by [[Sylvester Stallone]] in 1983. Created by [[A. Thomas Schomberg]] three 2-ton, 10-foot copies were cast. One was installed atop the steps for the filming of ''[[Rocky III]]''. After filming was complete, a debate erupted in Philadelphia between the Art Museum and the City's Art Commission over the meaning of &quot;[[art]].&quot; City officials, who argued that the statue was not &quot;art&quot; but a &quot;movie [[Theatrical property¦prop]],&quot; eventually moved it to the front of the [[Wachovia Spectrum]] in South Philadelphia. On September 8, 2006, the Rocky statue was returned again to the Art Museum and placed on a pedestal in a grassy area near the foot of the steps to the right of the Museum. The unveiling ceremony included live music, the debut of the first full trailer for ''Rocky Balboa,'' and a free showing of the first ''Rocky'' movie.</text>

1807 *'''Delete''': I don't often use the &quot;Wikipedia not a directory&quot; rationale, but I am now, plus lack of sources. A list like this is impossible to maintain (it needs to be updated any time any of those listed no longer are a couple), plus it's so broad a scope that anyone who is in such a relationship could add their name, NN or not. And it's also a vandalism magnet because some idiot could decide to put Harrison Ford and Sylvester Stallone down as a couple, or something. Above all, though, I have [[WP:BLP]] issues with this list, not only for the vandalism concern I just mentioned, but also because it may be necessary to cite sources that any of the people listed are, indeed, LGBT. The film is dedicated to the memory of [[Richard Crenna]], who died in 2003. Crenna had played [[Sam Trautman|Colonel Sam Trautman]] in the previous films. In the film, Rambo (reprised by Stallone) leads a group of mercenaries into [[Myanmar|Burma]] to rescue Christian missionaries, who have been kidnapped by a local infantry unit.

Stallone stated that due to the small production budget the only way to make the film memorable was to make it graphically violent. He said &quot;we were all sitting around in looking at the small production budget. Then I said  'Hey, fake blood is cheap, let's make it all-out bloody.'&quot; Filming started on January 22, 2007, and ended on May 4, 2007. It was shot in [[Chiang Mai, Thailand]] as well as in [[Mexico]] and the [[United States]] in [[Arizona]] and [[California]]. While filming near [[Burma]], Stallone and the rest of the crew narrowly avoided being shot by the Burmese military. Stallone described Burma as a &quot;hellhole&quot;. He said, &quot;We had shots fired above our heads&quot; and that he &quot;witnessed survivors with legs cut off and all kinds of land-mine injuries, maggot-infested wounds and ears cut off.&quot;&lt;ref name=&quot;NZ_Herald_10467584&quot;&gt;{{cite news |url=http://www.nzherald.co.nz/world/news/article.cfm?c_id=2&amp;objectid=10467584 |title=Sylvester Stallone describes Myanmar 'hellhole' |date=October 3, 2007 |agency=BANG Showbiz |work=[[The New Zealand Herald]] |access-date=November 4, 2011}}&lt;/ref&gt;

&lt;blockquote&gt;One film I'm truly proud of - it's the best action film I've ever done because it's the most truthful - is ''Rambo IV'', dealing with Burma, where they've had a civil war for 67 years. But I got excoriated because the movie's so violent. And it is violent. It's horrifying. It's children being burnt alive. That's what makes civil war worse than anything: It's your neighbor, all of a sudden, killing you. I was really happy with that film, and I never thought it would ever reach the theater. I thought, "They're never going to show this.&lt;ref&gt;{{cite web | url=https://www.hollywoodreporter.com/tv/tv-features/sylvester-stallone-interview-rocky-rambo-tulsa-king-1235254384/ | title=Sylvester Stallone Gets Candid About Career, Regrets, Feuds: &quot;I Thought I Knew Everything&quot; | website=[[The Hollywood Reporter]] | date=November 7, 2022 }}&lt;/ref&gt;&lt;/blockquote&gt;

1971 '''''No Place to Hide''''' is a 1973 American [[thriller film]] directed by Robert Allen Schnitzer and starring [[Sylvester Stallone]]. The film is about New York in the late 1960s; a politically motivated group of students plans bombings of company offices who do business with dictators in Central American countries. But when they contact a known terrorist and bombing specialist, the [[Federal Bureau of Investigation|FBI]] gets on their track. The film was re-cut and re-released as '''''Rebel''''' with greater emphasis on Stallone's character after he rose to fame.  In 1990, the film was again re-edited, this time as a comedy, and released under the title '''''A Man Called... Rainbo'''''.

He sued for $20 million; his average salary at the time. The producers countersued, and, in 1999, the case was settled out of court.&lt;ref name=&quot;McKittrick&quot; /&gt;
1974 * [[Sylvester Stallone]] had a [[Cameo appearance|cameo]] as a Boss
1975 The presence of Sylvester Stallone in the film was limited to a simple cameo, a favor he, along with his brother Frank, the protagonist of the film, made to the brothers Alan and Diane Mehrez, producers of the film. The problems arose when the Mehrez brothers promoted the film as soon as the shooting was over, as if Stallone were the protagonist; the plaintiff sued the two producers and the distribution of the film was thus blocked. The film was canceled and still remains unpublished, as Stallone asked for 20 million dollars to let the film be distributed with its leading name, his average salary during that period.

2023 The most visible film in this theme was [[Sylvester Stallone]]'s ''[[Rambo: First Blood Part II]]'' in 1985, which did the most to popularize the idea that U.S. POWs had been left behind after the war and that the government had no real interest in their rescue.&lt;ref name=&quot;daniel&quot;&gt;{{cite web | url=http://xroads.virginia.edu/~MA01/lundy/v/cinematic2.html | title=Left Behind: Cinematic Revisions of the Vietnam POW | author=Cathleen Lundy Daniel | publisher=University of Virginia | year=2001 | access-date=2008-01-25 | archive-url=https://web.archive.org/web/20080214022333/http://xroads.virginia.edu/~MA01/lundy/v/cinematic2.html | archive-date=2008-02-14 | url-status=dead }}&lt;/ref&gt; The Rambo character, who in this film may have been partly modeled after Bo Gritz,&lt;ref&gt;McConnell and Schweitzer, ''Inside Hanoi's Secret Archives'', p. 174.&lt;/ref&gt; was a Vietnam veteran commando still haunted by the multiple failures of the war. The pivotal moment of the film occurs when Rambo, realizing he was betrayed by the U.S. government and under torture from the Vietnamese and their Soviet allies, is put into radio communication with the officer who ordered the mission and tells him, &quot;Murdock. 2024 In 1997, Myron produced Mike Figgis'''[[One Night Stand (1997 film)|One Night Stand]]'', starring [[Wesley Snipes]], which was released in November 1997; Disney's ''[[Mr. Magoo (film)|Mr. Magoo]]'', which was released Christmas of 1997, and ''[[Burn Hollywood Burn]]'', starring Whoopi Goldberg, Sylvester Stallone and Jackie Chan, which was released in January 1998. During the same year, Myron also executive produced ''[[Barney's Great Adventure]]'', the famous purple dinosaur's only feature, which PolyGram released in April 1998. Also in 1997, ''Variety'' named Myron one of Five Most Prolific Producers of the Year.  In 1998, he produced ''[[The Mod Squad (film)|The Mod Squad]]'', starring Claire Danes and Omar Epps, for MGM, which was released in March 1999. Later that year, he executive-produced ''Hefner'', an MOW for the USA Channel.
2025 A fan favorite in Pittsburgh, he earned the nickname &quot;Rambo&quot; due to his prodigious power &amp; Stallone-esque physique. He even appeared on his own &quot;Rambo&quot; poster&lt;ref&gt;{{cite

2026 When casting ''Star Wars'', Lucas had a preference for unknown actors. He initially resisted casting Ford as Solo, since Ford had previously worked with him on ''[[American Graffiti]]'', and was therefore not unknown. 2077 When the game was being localized for the American market, Sega bought the license to base the game on ''Rambo: First Blood Part II''. The Player 1 character was redesigned to resemble Rambo, while Player 2 was replaced with a similar character who serves as Rambo's partner. The artwork on the title screen was replaced with a reproduction of [[Sylvester Stallone]]'s pose from the film's theatrical poster, while the original title theme was replaced by a [[Programmable Sound Generator|PSG]] rendition of [[Jerry Goldsmith]]'s theme music from the movie. Some adjustments were also made to the game's difficulty (flamethrower soldiers for example, who could only could be killed using arrows in ''Ashura'', are now vulnerable to regular gunshots in ''Rambo''). The visuals on the Stage Clear screen, which originally showed various Asian landscapes and buildings in ''Ashura'', were replaced with images of Rambo in various action poses.

2093 Reese Hardin (Hamlin) was the star of over-the-top but high-grossing action films while Jacey Watts (Grant), his second wife, was an often-nominated dramatic actress. They lived in a fancy house in [[Malibu, California]], (next door to [[Tom Hanks]], who was never seen) and raising their children, Apache and Moonglow.  Also living with them were Reese's less successful brother Todd and Lori, Reese's daughter from his first marriage. Apache always tried to come up with marketing ideas for his parents; in the second season he worked to try to get Jacey the [[Academy Awards|Oscar]] he felt she deserved. A running gag was that Todd's [[poker]] buddies were the real-life less-successful brothers of [[John Travolta]], [[Patrick Swayze]], and [[Sylvester Stallone]], playing fictionalized versions of themselves.

2106 The SFF is the first organization that brought the existence and the importance of Sicilian cinema to the world stage by considering that [[Sicily]] is second in [[Italy]] after [[Rome]] in producing movies, that some of the best Italian directors are Sicilian ([[Giuseppe Tornatore]] won an [[Academy Awards|Academy Award]] for [[Cinema Paradiso]]), that an incredible number of Hollywood stars are also Sicilian (consider [[Frank Sinatra]], [[Vincente Minnelli]], [[Martin Scorsese]], [[Frank Capra]], [[Susan Sarandon]], [[Cyndi Lauper]], [[Sylvester Stallone]], [[Joseph Barbera]]), and that an impressive number of directors from all over the world have chosen Sicily as a site for shooting their movies. Given the enormous number of Sicilians and Sicilian descendants throughout the world tired of the unjust association of their name with the Mafia and in search of a new cultural identity as an alternative to the inaccurate stereotypes, its founder Viscuso appears to have developed the right formula for involving millions of people into a converging project and a merging association. This formula includes an international background granted by the fact that the SFF is held in the United States of America rather than in Sicily, as well as the fact that other local editions of SFF will be held in other cities in the USA and in the world. At the same time the close relationship with the mother-island is established by this same &quot;Ambassador of Culture&quot; with the creation of another extremely successful event in Sicily, the FIMO ''International Festival of Organ Music in the Historical Princedom of Castelbuono'' at its first edition in 2008.

2143 As the video begins, Jackson tries to evade overzealous fans and interviewers (including [[the Noid]] from [[Domino's Pizza]] commercials), disguising himself as a rabbit named Spike. However, as his alter ego, he goads the fans into chasing him. During the chase, he morphs into other celebrities, including [[Sylvester Stallone]], [[Tina Turner]] and [[Pee-wee Herman]]. After finally losing the mob, he removes the costume, which comes to life and challenges him to a dance-off. As the two finish dancing, a police officer (portrayed by [[Clancy Brown]]) approaches and indicates a &quot;No Dancing&quot; sign. Jackson tries to explain the situation, but Spike has vanished. The officer sarcastically indicates that he needs Jackson's &quot;autograph&quot; on a violation ticket, which Jackson grudgingly provides. The officer departs and, as Jackson prepares to do the same, a rocky crag in the distance morphs into Spike's head; Jackson and the rock formation smile at each other.

2160 In 2009, Herzfeld directed the 90-minute documentary ''Inferno: The Making Of The Expendables'' for his friend [[Sylvester Stallone]]. The two first worked together in 1969 on a low-budget self-produced film called ''Horses'', and later again on ''[[Cobra (1986 film)|Cobra]]'', where Herzfeld plays a goon that Stallone's character sets on fire during the film's climax. Herzfeld also directed Stallone in his 2014 film, which was produced by Seraphim Films Productions, his wife, Rebekah Chaney's company. Chaney applied for the CA Tax credit in 2011 and received the funding in 2012, with only 90 days allotted for pre-production or the credit would be awarded to another production. Chaney and Herzfeld started the process together before any cast members were assigned. Chaney is the original first producer of the film ''[[Reach Me]]''.
